Dirlik, Vinay Bahl, Peter Gran, 2000 History as a discipline faces a crisis of identity as Eurocentrism fades in a world where globalized visions compete to explain historical processes Facing the challenge squarely this volume\_ comprising specialists on Asia Africa and Latin America\_ explores the state of historical analysis in various world regions and appraises current views on what defines and challenges historical knowledge It is widely accepted that Eurocentrism no longer seem acceptable in a world where others are reasserting their own notions of past and future The postDWorld War II spatialities that guided both historical analysis and the division of labor in historical work are in the process of disappearing into more globalized visions Constituencies left out of history in the past are making demands for the recognition of their historical presence History as epistemology is under attack as a marker of Eurocentric modernity from non historical ways of thinking as well as from ideologies of postmodernism that deny to history its claims to truth Indeed the current situation in the field has been described by one distinguished historian as a Ocacophonous confusion O The challenge historians face is how to imagine new ways of writing history that overcome this confusion without falling back upon ideological and methodological prejudices that reproduce the problems of the past in new guises The contributors discuss how these challenges are voiced and met in their different areas of specialization Unsurprising in a volume that addresses a variety of regions and issues that are not only technically historiographical but also deeply cultural and political the authors differ in their appraisal of the challenges presented by globalization postmodernism or postcolonialism Yet they are united in their recognition of the validity of historical ways of knowing and their reaffirmation of the importance of history in grasping contemporary cultural and political problems It is because history is entangled in a Eurocentric modernity that in a postmodern world it provides the medium for articulating alternatives to Eurocentrism\_ and to history itself The Quest, 1920 Three Worlds of Collective Human Experience: Individual Life, Social Change, and Human Evolution Victor N. Shaw, 2018-08-22 This book explores three worlds shared by the humans in their collective experiences It identifies and explores the world of commonsense the world of religion and the world of science as three essential dimensions of human experience The book helps understand that humans can gain comfort and pleasure in commonsense achieve meaning and purpose from religion and attain truth and rationality through science It actively applies theories to and develops theoretical explanations from different domains or situations of human existence This book is of interest to theorists researchers instructors and students across major academic disciplines in the humanities and social sciences **The Science Fiction of Cordwainer Smith** Karen L. **Goddesses in Myth and Cultural Memory** Emilie Kutash, 2021-04-22 How have the goddesses of ancient myth survived prevalent even now as literary and cultural icons How do allegory symbolic interpretation and political context transform the goddess from her regional and individual identity into a goddess of philosophy and literature Emilie Kutash explores these questions beginning from the premise that cultural memory a collective cultural and social phenomenon can last thousands of years Kutash demonstrates a continuing practice of interpreting and allegorizing ancient myths tracing these goddesses of archaic origin through history Chapters follow the goddesses from their ancient near eastern prototypes to their place in the epic poetry drama and hymns of classical Greece to their appearance in Platonic and Neoplatonic philosophy Medieval allegory and their association with Christendom Finally Kutash considers how goddesses were made into Jungian archetypes and how some contemporary feminists made them a counterfoil to male divinity thereby addressing the continued role of goddesses in perpetuating gender binaries *Catalog of Copyright Entries.
