## **Quest For A Philosophical Jesus Christianity And Philosophy In Rousse:**

**Quest for a Philosophical Jesus** Vincent A. McCarthy, 1986 In this book Vincent A McCarthy examines the work of four philosophers of the late eighteenth and early nineteenth centuries Rousseau Kant Hegel and Schelling who were committed to no lesser goal than the philosophical rehabilitation of Christianity and its Christ in the wake of the Enlightenment They sought the elusive philosophical formula for reconciling reason and revelation and then elaborated it in a philosophy of religion that would rearticulate the religion of Jesus in a positive light as against the destructive momentum and dark shadows cast by Enlightenment religious thought This was however no modern apologetics and traditional Christians were largely displeased and disturbed by the results For what becomes of Christianity and its Christ in the works of these philosophers occurs not for the sake of Christianity but for the sake of philosophy Rousseau Kant Hegel and Schelling spearheaded an audacious attempt to fulfill philosophy's program in a philosophy of religion and to save religion from philosophy and for philosophy Professor McCarthy examines in detail the philosophies of Christianity and the philosophical Christologies they created Their work did not issue in unqualified success yet the influence reaction rejection and revival that each has generated as well as the lessons of their failures commend them to critical attention still Elenchus of Biblica, 1986 Christianity and Rabbinic Judaism Jonas E. Alexis, 2011-12 The simple step of a courageous individual is not to take part in the lie One word of truth outweighs the world Alexander Solzhenitsyn In this penetrating and provocative work Jonas E Alexis challenges common assumptions about the relationship between Christianity and Rabbinic Judaism and provides compelling evidence from history and theology that demonstrates the extent to which modern Judaism has been defined by the Pharisaic and Rabbinic schools of thought As Alexis meticulously documents there has been a constant struggle between Christianity and Rabbinic Judaism since the time of Christ a struggle that will define the destiny of the West Islam according to Christianity is a historically and theologically false religion since it denies both Jesus's deity and His work of salvation at the Cross But Rabbinic Judaism Alexis argues is equally false and in many respects more dangerous to Christianity and the West than Islam since at its root Rabbinic Judaism wages war against the Logos the system of order in the world embodied by Christ In this painstakingly scholarly yet readable work Alexis maintains that Rabbinic Judaism defined by the Pharisaic teachings now codified in the Talmud that Jesus sought to correct is a categorical and metaphysical rejection of Christianity a rejection that has had and will continue to have severe implications for Western culture intellectual history and theological exegesis Why I Am a Christian Norman L. Geisler, Paul K. Hoffman, 2006-12 Now with a new chapter on Why I Am Not a Muslim by an ex Muslim Why I Am a Christian is an even more helpful resource in our global times *The God of Covenant and Creation* Larry S. Chapp, 2013-05-01 According to Larry Chapp theology is left with two dire options in the aftermath of naturalism's apparent cultural triumph provide modernity with an intellectually cogent theological vision or perish along with that same culture in the wasteland of our nihilism Chapp's important book is grounds for hope that theology may live to see

another day and that the pervasive nihilism may not have the last word He correctly diagnoses the intellectual and cultural dangers posed by so called scientific naturalism lifting the lid on its alleged metaphysical neutrality and exposing this naturalism for what it fundamentally is a bad theology which doesn't know itself And more importantly still he restores theology to its proper cosmological scope Not only does creation become intellectually compelling in Chapp's deft hands it elicits wonder and praise for its Creator and restores what is human in us This is a hopeful development indeed and a sign of an indispensable book Michael Hanby on back cover *American Book Publishing Record*, 2001

**The Conceptual Worlds of the Fourth Gospel** Charles B. Puskas, C. Michael Robbins, 2021-01-08 Over under and through John's story of Jesus are unforgettable ideas and concepts profoundly simple and simply profound for the author's own audience and beyond These ideas did not originate in a vacuum They have recurred and been repeated before and after the writing of the Fourth Gospel For this reason we will examine the meaning of its words and themes in the context of its Jewish Greco Roman milieu Much of our intertextual understanding will be derived from alleged parallels that involve comparisons of similar vocabulary and phrases as well as parallel concepts and images from the Old Testament the Dead Sea Scrolls Philo and other relevant writings Such parallels will help to determine the meaning of a word or expression the translation of a particular language determining any direct influences upon the Fourth Gospel parallel traditions or the influence of its ideas as a creative and inspiring work of later antiquity

**Outgrowing God?** Peter S. Williams, 2020-09-30 Join a cast of characters with different perspectives thinking through some of the biggest questions in life as they discuss atheist Richard Dawkins's book *Outgrowing God: A Beginner's Guide* Written in the form of a dialogue between members of a student book club *Outgrowing God: A Beginner's Guide* to Richard Dawkins and the God Debate encourages critical thinking about Professor Dawkins's arguments concerning God Jesus and the Bible

Bowler, 2014-04 Although much has been written about the vigorous debates over science and religion in the Victorian era little attention has been paid to their continuing importance in early twentieth century Britain *Reconciling Science and Religion* provides a comprehensive survey of the interplay between British science and religion from the late nineteenth century to World War II Peter J. Bowler argues that unlike the United States where a strong fundamentalist opposition to evolutionism developed in the 1920s most famously expressed in the Scopes monkey trial of 1925 in Britain there was a concerted effort to reconcile science and religion Intellectually conservative scientists championed the reconciliation and were supported by liberal theologians in the Free Churches and the Church of England especially the Anglican Modernists Popular writers such as Julian Huxley and George Bernard Shaw sought to create a non-Christian religion similar in some respects to the Modernist position Younger scientists and secularists including Rationalists such as H. G. Wells and the Marxists tended to oppose these efforts as did conservative Christians who saw the liberal position as a betrayal of the true

spirit of their religion With the increased social tensions of the 1930s as the churches moved toward a neo orthodoxy unfriendly to natural theology and biologists adopted the Modern Synthesis of genetics and evolutionary theory the proposed reconciliation fell apart Because the tensions between science and religion and efforts at reconciling the two are still very much with us today Bowler s book will be important for everyone interested in these issues The Journal of Hellenic Studies ,1962 Vols 1 8 1880 87 plates published separately and numbered I LXXXIII Four Volumes on Christianity Albert Schweitzer,2019-04-30 Four of the Nobel Peace Prize winning author s most influential insightful and inspiring works on theology and ethics in the modern world Famous for founding the Albert Schweitzer Hospital in what is now the West African country of Gabon Albert Schweitzer s ethical philosophy of Reverence for Life became one of the most influential ideas of the twentieth century These four volumes chart the development of Schweitzer s philosophy from his student days to his career as a globally revered intellectual The Essence of Faith While studying for his PhD at the Sorbonne Schweitzer developed his views on theology through an analysis of Immanuel Kant s philosophy of religion In The Essence of Faith Schweitzer explores Kantian ideas to arrive at an inspiring meditation on God faith and the limits of human understanding Pilgrimage to Humanity In Pilgrimage to Humanity Schweitzer discusses his philosophy his ministry in Africa and his pursuit of world peace He also explores the important contributions to civilization made by figures such as Johann Wolfgang von Goethe J S Bach and Jesus of Nazareth The Quest of the Historical Jesus In this landmark work of Biblical criticism Schweitzer deconstructs the traditional myths of Jesus s life by offering rigorous textual analysis and historical evidence By establishing the social and political climate of Jesus s time Schweitzer not only dismantles the previously dominant images of Jesus but also presents a compelling new theory of his own The Light Within Us In The Light Within Us Schweitzer s longtime friend Richard Kik has compiled many of his most insightful and inspiring quotations Drawn from his many writings these quotations share Schweitzer s thoughts on service gratitude God missionary work and much more **Methods in the Madness** Anna M. Robbins,2004 This study examines some key approaches to ecumenical social ethics in the past century as expressed in the thought of Walter Rauschenbusch Reinhold Niebhur and the World Council of Churches The author argues that unless Christians are clear about the ways that theology and philosophy relate to one another and work themselves out in our practical commitments we will lose the ability to discuss social ethics as individuals and churches let alone reach effective arguments *An Informed Cosmos* Peter S. Williams,2023-07-14 After a substantial author s preface recounting the author s life journey with the question of science and design in nature An Informed Cosmos pulls together essays that jointly cover the core arguments for a scientific theory of intelligent design Along with a foreword by philosopher of science and leading design theorist Stephen C Meyer and a wide range of recommended resources An Informed Cosmos offers an informed overview of the contemporary case for intelligent design **The Philosopher's Index** ,2009 Vols for 1969 include a section of abstracts Directory of American Scholars Jaques Cattell Press,1974 Religious and Theological Abstracts
