Crotty, 2015-03-27 Set against the backdrop of the war in Iraq drastically altered relations with traditional U S allies intense partisanship and a national debate over moral values the 2004 presidential campaign presented voters with a clear choice that reflected deep divisions within the country This collection analyzes this watershed election and its likely consequences The contributors examine every aspect of the election including the strategies and tactics of the Bush and Kerry campaigns voter turnout and policy consequences campaign financing and the power of incumbency **Presidential Leadership** George C. Edwards, Stephen J. Wayne, 2006 From routine operations to the workings of a White House in crisis PRESIDENTIAL LEADERSHIP POLITICS AND POLICY MAKING examines all facets of the presidency in rich detail with a special emphasis on policy The authors use analytical prose and timely fascinating examples to examine the presidency from two theoretical standpoints the President as facilitator and the President as director of change Beyond the Boundaries Georgia A. Persons, 2017-09-29 In the past African American aspirations for political offi ce were assumed to be limited to areas with sizeable black population bases By and large black candidates have rarely been successful in statewide or national elections This has been attributed to several factors limited resources available to African American candidates or identification with a black liberationist ideological thrust Other factors have been a relatively small and spatially concentrated primary support base of black voters and the persistent resistance of many white voters to support black candidates For these reasons the possibility of black candidates winning elections to national office was presumably just a dream Conventional wisdom conceded a virtual cap on both the possible number of black elected officials and the level of elective offi ce to which they could ascend But objective political

analysis has not always made sufficient allowances for the more universal phenomenon of individual political ambitions The contributors to this volume explore the ways ambitious individuals identified and seized upon strategies that are expanding the boundaries of African American electoral politics This volume is anchored by a symposium that focuses on new possibilities in African American politics Both the electoral contests of 2006 and the Barack Obama presidential campaign represent an emergent dynamic in American electoral politics Analysts are beginning to agree that the contours of social change now make the electoral successes of black candidates who are perceived as ideologically and culturally mainstream increasingly likely. The debate captured in this volume will likely inspire further scholarly inquiry into the changing nature and dimensions of the larger dynamic of race in American politics and the subsequent changing political fortunes of African American candidates America at Odds Edward Sidlow, Beth Henschen, 2005-07 Known for its provocative and engaging issues approach topical organization and economical length AMERICA AT ODDS ALTERNATE EDITION which excludes coverage of policy explores the current conflicts that truly define America as a nation while involving students in discussion and debate The engaging content and pedagogical features throughout AMERICA AT ODDS support two main goals of the text to encourage students to read about American politics and government and to participate in the political system In every chapter of the text the foundations and systems of political history behavior institutions and policy are presented within the framework of issues oriented debate making AMERICA AT ODDS truly unique as an approach to teaching the Introduction to American Government course **Quest for the Presidency** Bob Riel, 2022-04 Quest for the Presidency gathers in a single volume the compelling stories behind every presidential campaign in American history from 1789 through 2020 Bob Riel takes us inside the 1800 clash between Thomas Jefferson and John Adams the 1860 election that launched the Civil War the 1948 whistle stop comeback of Harry Truman the Kennedy Nixon drama of 1960 the 1980 Reagan Revolution the historic 2008 election of Barack Obama the turbulent 2020 battle between Joe Biden and Donald Trump and everything in between This engaging and insightful book includes a trove of entertaining stories about campaigns and candidates and it goes beyond the campaign tales to also consider the threads that link elections across time It sheds light on the continually evolving story of American democracy in a way that helps us to better understand present day politics Religion and Public Life in the Middle Atlantic Region Randall Balmer, Mark Silk, 2006-03-23 An overview of public religion in Delaware Maryland New York New Jersey Pennsylvania and Washington DC **Dynamics of Democracy** Peverill Squire, James M.
