Back to the Land Dona Brown, 2011-06-01 For many going back to the land brings to mind the 1960s and 1970s hippie communes and the Summer of Love The Whole Earth Catalog and Mother Earth News More recently the movement has reemerged in a new enthusiasm for locally produced food and more sustainable energy paths But these latest back to the landers are part of a much larger story Americans have been dreaming of returning to the land ever since they started to leave it In *Back to the Land* Dona Brown explores the history of this recurring impulse Back to the landers have often been viewed as nostalgic escapists or romantic nature lovers But their own words reveal a more complex story In such projects as Gustav Stickley's Craftsman Farms Frank Lloyd Wright's Broadacre City and Helen and Scott Nearing's quest for the good life Brown finds that the return to the farm has meant less a going backwards than a going forwards a way to meet the challenges of the modern era Progressive reformers pushed for homesteading to help impoverished workers get out of unhealthy urban slums Depression era back to the landers wary of the centralizing power of the New Deal embraced a new third way politics of decentralism and regionalism Later still the movement merged with environmentalism To understand Americans response to these back to the land ideas Brown turns to the fan letters of ordinary readers retired teachers and overworked clerks recent immigrants and single women In seeking their rural roots Brown argues Americans have striven above all for the independence and self sufficiency they associate with the agrarian ideal Best Books for General Audiences selected by the American Association of School Librarians [Live Deep and Suck all the Marrow of Life: H.D. The Making

of the Good Person Nora Hämäläinen, 2023-04-03 This book provides a philosophical assessment of the idea of personhood advanced in popular self help literature It also traces within academic philosophy and philosophical scholarship a self help culture where the self is brought forth as an object of improvement and a key to meaning progress and profundity Unlike other academic treatments of the topic of self help this book is not primarily concerned with providing a critique of popular self help and self transformative practices Rather it is concerned with how they work to shape contemporary forms and ideals of moral personhood and are conducive to moral renegotiation and change The book consists of two parts with somewhat different argumentative strategies Part 1 consists of an overview and reassessment of popular self help literature and its sociological and journalistic critics written from a moral philosophical perspective Part 2 opens with discussion of the current attraction among a range of philosophers to self transformative themes The chapters assess the strand of self transformative philosophy found in the work of Ludwig Wittgenstein Michel Foucault Pierre Hadot Stanley Cavell and Iris Murdoch Finally the book concludes with a discussion of the theme of social change and moral renegotiation in contemporary societies which is a central but underestimated undercurrent in discussions on contemporary self transformative practices The book's dual perspective on both popular self help and self transformative currents in philosophy enables a cultural and moral philosophical analysis of contemporary ethical ideals of personhood as well as reflection on the literatures available for its development The Making of the Good Person will be of interest to scholars and advanced students working in moral philosophy history of philosophy psychology sociology and literary studies

The Constitution of Shelley's Poetry Edward T. Duffy, 2011-07-01 The Constitution of Shelley's Poetry is a close philosophical reading of Prometheus Unbound and other Shelley works from the perspective of the argument or drama of language played out in its pages The book urges and practises close reading but in the thought of Stanley Cavell it finds and develops philosophical grounds for this ostensibly old fashioned approach and it implicitly proposes an understanding of language very different from those currently assumed in literary studies

Birthing a Nation Susan J. Rosowski, 2015-10 Birthing a Nation is about national identity and the American West If it is a truism that facing west was the American male version of invoking the Muse what happened if you were female Most past interpretations of western American literature have echoed Frederick Jackson Turner's frontier hypothesis emphasizing the conflict of wilderness and civilization the hero of rugged individualism the act of returning to origins and reemerging as the reborn American Adam In this reading of western American women writers who responded to the challenge to give birth to a nation Susan J Rosowski proposes an alternative more hopeful affirmation of our cultural history and perhaps our cultural destiny Rosowski begins by tracing the birth metaphor through three and a half

centuries of American letters She reexamines the premises underlying the telling of the literary West and posits a female model of creativity at the genesis of American literature She follows four authors on a multigenerational journey beginning with Margaret Fuller in 1843 moving on a generation later to Willa Cather advancing to Jean Stafford and ending with Marilynne Robinson In her reading of these writers who most directly and deeply believed in literature as a serious and noble form of art and who wrote to influence how the country perceived itself Rosowski contributes to the ongoing process of remapping the literary landscape

Cultural Sustainability Torsten Meireis, Gabriele Rippl, 2018-09-03 If the political and social benchmarks of sustainability and sustainable development are to be met ignoring the role of the humanities and social cultural and ethical values is highly problematic People s worldviews beliefs and principles have an immediate impact on how they act and should be studied as cultural dimensions of sustainability Collating contributions from internationally renowned theoreticians of culture and leading researchers working in the humanities and social sciences this volume presents an in depth interdisciplinary discussion of the concept of cultural sustainability and the public visibility of such research Beginning with a discussion of the concept of cultural sustainability it goes on to explore its interaction with philosophy theology sociology economics arts and literature In doing so the book develops a much needed concept of culture that can be adapted to various disciplines and applied to research on sustainability Addressing an important gap in sustainability research this book will be of great interest to academics and students of sustainability and sustainable development as well as those studying sustainability within the humanities and social sciences such as cultural studies ethics theology sociology literature and history
