*A Question of Identity* Anne J. Kershner, 1998 A Question of Identity is a multi disciplinary exploration of one of the most vital issues in the contemporary world Never was this topic more relevant than now on the threshold of the twenty first century At a time when the global economy European citizenship and worldwide religion are the order of the day nationalism as in eastern Europe and the Balkans and regionalism Wales and Scotland provide perfect examples ride high on the agenda It is the problems and paradoxes that emerge immediately the subject is raised that form the core of this book A Question of Identity breaks new ground by drawing together eminent academics from a variety of disciplines including anthropology history law linguistics politics psychology and sociology to examine the way in which issues of identity have impacted on society and the way in which changes in society have resulted in a re evaluation of identity Topics covered include Britishness within the context of devolution language and identity religion gender and identity the political and legal problems of European citizenship elderly migrants and identity and German identity after reunification The book explores questions of identity in two sections British and global The main conclusion to be reached is that at any period of history the question of identity is complex composed of interacting facets which combine in larger or smaller proportions to create the whole be that individual group ethnic religious national or supranational This book sets out to identify some of the facets that contribute to the whole and by so doing answers some of the questions which are currently circulating around the question of identity

**The Kurdish Question: Identity, Representation and the Struggle for Self- Determination**, 2015-07-15 The book examines several models which have been advocated for a workable and acceptable solution to the Kurdish problem which would be absolutely necessary for stability in the West Asian region The book evaluates how the more than two decade long experience of Kurdish self rule in a democratic framework in Iraqi Kurdistan affects the debate over the other Kurdish regions in West Asia With Turkey s European Union accession process contributing to the opening of the political space to ethno nationalism there is a need for a non military solution to the Kurdish issue The book analyses the role of Kurdish diaspora which plays a significant part in placing the Kurdish question on the European political agenda It also examines the role of the Kurds in the aftermath of the Arab Spring and the changing geopolitics in the region Now the Kurds maintain the strongest platform in battling against the ISIS terrorists

**Identity** Steph Lawler, 2008 Lawler examines debates surrounding identity and shows how identity is part of the fabric of society and integral to social relations The book includes all the core topics covered by courses in this field and uses rich and varied contemporary empirical examples to illustrate the discussion
