Question Of Separatism Quebec And The Struggle Over Sovereignty:

The Question of Separatism Jane Jacobs, 2016-11-02 Jane Jacobs writing from her adoptive country uses the problems facing an independence seeking Quebec and Canada as a whole to examine the universal problem of sovereignty and autonomy that nations great and small have struggled with throughout history Using Norway's relatively peaceful divorce from Sweden as an example Jacobs contends that Canada and Canadians Quebecois and Anglophones alike can learn important lessons from similar sovereignty questions of the past

Quebec, the Challenge of Independence Anne Griffin, 1984 This psycho social examination of the Quebecois separatist movement is based on extensive interviews with a variety of persons Its surprising results include the discovery that a desire for economic improvement or enhanced political power rarely motivates participation in the movement

The Statesman's Year-Book 1987-88 J. Paxton, 2016-12-16 The classic reference work that provides annually updated information on the countries of the world An Analysis of Jane Jacobs's The Death and Life of Great American Cities Martin Fuller, Ryan Moore, 2017-07-05 Despite having no formal training in urban planning Jane Jacobs deftly explores the strengths and weaknesses of policy arguments put forward by American urban planners in the era after World War II They believed that the efficient movement of cars was of more value in the development of US cities than the everyday lives of the people living there By carefully examining their relevance in her 1961 book *The Death and Life of Great American Cities* Jacobs dismantles these arguments by highlighting their shortsightedness She evaluates the information to hand and comes to a very different conclusion that urban planners ruin great cities because they don't understand that it is a city's social interaction that makes it great Proposals and policies that are drawn from planning theory do not consider the social dynamics of city life They are in thrall to futuristic fantasies of a modern way of living that bears no relation to reality or to the desires of real people living in real spaces Professionals lobby for separation and standardization splitting commercial residential industrial and cultural spaces But a truly visionary approach to urban planning should incorporate spaces with mixed uses together with short walkable blocks large concentrations of people and a mix of new and old buildings This creates true urban vitality
