Goss,2020-08-06 Kristin A Goss examines how women s civic place has changed over the span of more than 120 years how public policy has driven these changes and why these changes matter for women and American democracy As measured by women s groups appearances before the U S Congress women s collective political engagement continued to grow between 1920 and 1960 when many conventional accounts claim it declined and declined after 1980 when it might have been expected to grow Goss asks what women have gained and perhaps lost through expanded incorporation as well as whether single sex organizations continue to matter in 21st century America *Questions of Gender* Dina L. Anselmi,Anne L. Law,1998 A collection of reading on various topics related to the intersection of gender studies and psychology Topics covered include defining sex and gender cross cultural perspective on gender gender identity and gender and relationships The Pentecostal Gender Paradox Joseph Lee Dutko,2023-11-16 The distinct subjects of eschatology and gender equality have seen an explosion of interest in recent decades particularly within Pentecostal scholarship Pentecostalism is regarded ideally as both an eschatological and egalitarian movement However many Pentecostals have lamented the inconsistency between the early egalitarian impulse of the movement and its current restrictive practices This situation has been described as the so called Pentecostal gender paradox referring to the conflicting freedoms and limitations experienced by Pentecostal women Pentecostals have also recognized the waning eschatological fervor within the movement and its shifting eschatological convictions leading to calls to rediscover the eschatological heart of the movement Despite the renewed interest in both eschatology and women s equality little research has been done to put these two areas into conversation with each other eschatological convictions are often absent in the debate on gender roles in the church For Pentecostals eschatology has often been about urgency in saving souls rather than attending to social issues but could Pentecostal eschatology be the key to re discovering greater equality for women in the church Is the waning of both eschatology and women s equality within Pentecostalism potentially interrelated For over one hundred years the role of women in Pentecostalism has been debated without a firm consensus By examining gender solely through an eschatological lens in history Scripture and praxis this work provides a valuable and creative contribution to one of the most important theological and global issues of our time women s in equality This book is also one of the first comprehensive studies to approach a single social issue solely through an eschatological lens and to provide attention to developing a thorough and methodologically connected eschatological praxis By uncovering the unified eschatological egalitarian narrative thread within both the Pentecostal and biblical story this work suggests that the present end of women s inequality begins with fidelity to the future eschaton of gender equality **Women's Lives** Claire A. Etaugh,Judith S. Bridges,2015-07-14 Women s

The Neutrality Paradox in Sport Hans Erik Næss, 2022-10-03 Following Russia's invasion of Ukraine in early 2022 sanctions were implemented that banned Russia from most international sports As a result sport governing bodies (SGBs) have made a marked shift in their tradition of neutrality to a point of no return In light of this this book asks what is next for SGBs It provides an analysis of the root problem that sport governing bodies have had with politics since their inception a paradoxical treatment of neutrality This can be evidenced by their awarding of Mega Sport Events to authoritarian states and also through the SGBs' own desire to make a difference by promoting human rights and sustainable development Good or bad the author argues that their neutrality principles are invalidated by their actions Offering interdisciplinary research with empirical examples this issue is explored in an engaging yet analytical way making it valuable reading for researchers and students interested in sport management for organisations and also policy makers This book presents a pioneering study of neutrality and autonomy in sport in light of the Ukraine crisis and addresses a growing appetite in academia on how sport governing bodies will reconcile their commitments to societal progress whilst maintaining neutrality

Seeking Equal Opportunities and Safe Environments: Research from a Gender Perspective Alba

García-Cid, Lourdes Villardon, Patricia García-Leiva, Raquel Diniz, Rosalia de Oliveira Lemos, Clarissa Pepe-Ferreira, Ana María Espinoza Catalán, 2025-02-07 Society's most important challenges require the best evidence to address the problems they entail. This is the main objective of the Research Topic Seeking Equal Opportunities and Safe Environments Research from a Gender Perspective. Considering that gender violence is a significant public health problem and social scourge affecting millions of individuals around the world, this issue aims to tackle all forms of gender-based violence, discrimination, and inequalities in order to foster safe environments for all people. High-level psychosocial, cultural, political, health, and educational research is needed to the pursuit of equal opportunities in the 21st century and very importantly to do so with a social impact that is reflected in an improvement of society. To meet the challenges in society and following The Sustainable Development Goals from the United Nations 2030 Agenda, research is sought inter alia on vulnerable populations who are specially affected by gender violence: children, adolescents, women, migrant groups, ethnic minorities, groups with special educational needs, LGBTIQ collective. This is intended to contribute to the objectives of Goal 4 Quality Education, Goal 5 Achieve gender equality and empower all women and girls, Goal 10 Reduce inequality, and Goal 16 Promote justice, peaceful and inclusive societies. With this in mind to carry out this important task, we are looking for research that provides evidence on the current global situation from a gender perspective and interventions that promote and support equality between men and women in a safe social context where violence and discrimination have no place. *The Question of Gender* Judith Butler, Elizabeth Weed, 2011-07-20 A generation after the first publication of Joan W. Scott's influential essay *Gender: A Useful Category of Historical Analysis*, this volume explores the current uses and valences of the term and the ongoing influence of Scott's work in history and other disciplines. Leading scholars from history, philosophy, literature, art history, and other fields examine how gender has translated into their own disciplinary perspectives. How has the study of gender independently or in conjunction with other axes of difference such as race, class, and sexuality inflected existing fields of study and created new ones? To what extent has this concept modified or been modified by related paradigms such as women's and queer studies? With what discursive politics does the term engage and with what effects? In what settings and through what kinds of operations and transformations can gender remain a useful category in the twenty-first century? *The Political Dimensions of Religion* Said Amir Arjomand, 1993-01-01 This volume explores the relationship between religion and politics. It brings a varied sample of richly detailed comparative and case studies together with a set of analytical paradigms in an integrated framework. It is a major statement on a timely subject and a plea for the acknowledgment of normative pluralism as firmly rooted in the history of religion. The editor shows that the fact of political diversity in the history of world religions compels the acceptance of pluralism as a normative principle. *Gender and Thought: Psychological Perspectives* Mary Crawford, Margaret Gentry, 2012-12-06 In this volume, gender serves as a general framework for analyzing the ways people think about mathematical performance, language, self-concept, social categories, and methods and ways of knowing and

creating knowledge A distinguished group of authors shows how various forces in language family practices and education reinforce differentiation among the sex roles This volume attempts to bridge this gap between difference and equality by revitalizing and reinterpreting the concept of gender differences Gender and Thought places research on women and gender at the heart of many important areas of scholarly inquiry Gender Issues in Society: Myths, Reality and Responsibility Mr. Jantu Das, **Christian Nationalism and the Paradox of Secularism** Andrew Fiala,2025-05-08 Christian nationalism is a backlash against the success of secularism and the growth of nonreligion Its proponents go so far as to claim that secularism is diabolical This rejection of secularism poses a significant challenge for secular systems which aim to be inclusive of diverse religious ideas This book explains the depth of this challenge while recounting the views of Christian nationalists including Donald Trump It shows how key figures in the American tradition Adams Jefferson Madison and others promoted political secularism It uses Christian theology and modern political philosophy to argue in defence of secularism and against Christian nationalism **Unveiling the Gender Paradox** Lekha N.B.,Antony Palackal,2022-08-01 Both nationally and internationally the south Indian state of Kerala has been an object of study for its matrilineal kinship organization among some communities as well as its achievements in education literacy and life expectancy for women against a weak economic base Nonetheless scholars have drawn attention to a paradox in Kerala s model of development namely women s deteriorating social position in Kerala and the rise in violence against women Against this backdrop this book explores the intersections of gender sexuality marriage family and kinship as related to the matrilineal Nayar community in Kerala Chapters unravel the interplay between the triple categories of gender power and social development as they play out at the micro meso and macro levels of society probing the ways in which Nayar women practice agency Ultimately the authors explore how the strength of the Nayar community can be used as a case study toward circumventing the prevailing gender paradox and re imagine a more liberated empowered and self reliant woman not only in Kerala but in India at large This book will be of interest to scholars in sociology gender studies and development studies particularly those with a focus on South Asia
