Barchana-Lorand,2025-08-21 This book examines the rationale of incorporating the arts in the school curriculum from a philosophical rather than pedagogical perspective Educational resources are frequently under scrutiny and education policy makers wish to maximize the use of public funds and children s time at school leaving the arts as a lower priority To understand the logic behind this Lorand revisits milestones in the history of the philosophy of art to address core questions in art education namely what are the challenges of teaching the arts And why teach the arts at all Lorand draws on the work of a broad range of philosophers including Dewey Eisner Greene Hume Plato Kant Langer Read and Schiller The book aims to show how attempts to justify art as a tool for societal and individual improvement fail in advocating art education Ultimately she claims that the arts should be taught because children have the right to receive art education That right stems from the unique nature of art Questions in Aesthetic Education Hildred Betty Redfern,2012 Aesthetics and Education Michael J.
