

Essential Objections Checklist

A quick-reference list for your trial notebook.

By Leonard Bucklin

Excerpted from [Building Trial Notebooks](#)

There are only a couple dozen common evidence objections that are likely to be used in most trials. Every experienced civil trial lawyer hears them over and over. There are a number of other objections that can be made. Some evidence texts give lists of 150 or more. But for all practical purposes, there are only the basic two dozen that you need to remember with unqualified certainty and sure familiarity. Put a copy of this "Form: Objections Checklist" in your trial notebook behind Tab 16, "Law."

WARNING. Most objections are not allowed to be made during depositions. For the much shorter list of valid or invalid objections during depositions refer to the discussion in §40.3 of this book.

Following this alphabetical listing is a short discussion, in order, of each of the objections, in the format of (1) a form statement of the individual objection, (2) a short discussion for quick reference, and then (3) a form response to the objection.

The Basic Two Dozen: Quick alphabetical list for reference and refreshment.

1. Admitted.
2. Argumentative.
3. Assumes facts not in evidence.
4. [Best evidence rule](#).
5. Beyond the scope of direct / cross / redirect examination.
6. Completeness.
7. Compound question / double question.
8. Confusing / vague / ambiguous.
9. Counsel is testifying.
10. Form.
