Rediscoveries And Reformulations:

Rediscoveries and Reformulations Hayward R. Alker, 1996-05-30 This book provides a distinctive and rich conception of methodology within international studies From a rereading of the works of leading Western thinkers about international studies Hayward Alker rediscovers a neo Classical conception of international relations which is both humanistic and scientific He draws on the work of classical authors such as Aristotle and Thucydides modern writers like Machiavelli Vico Marx Weber Deutsch and Bull and post modern writers like Havel Connolly and Toulmin The central challenge addressed is how to integrate positivist or falsificationist research styles within humanistic or interpretive ones The author argues that appropriate philosophically informed reformulations of conventional statistical and game theoretic analyses are possible and describes a number of humanistic methodologies for international relations including argumentation analysis narrative modeling computational models of political understanding and reconstructive analysis **International Relations, Political Theory and the Problem of Order** N. J. Rengger, 1999-11-04 This book seeks to offer a general interpretation and critique of both methodological and substantive aspects of International theory *Alker and IR* Renée Marlin-Bennett, 2012-03-12 International Relations have rarely been considered a synthesis of humanistic and social sciences approaches to understand the complex connections of a global and globalizing world One of the few scholars to have accomplished this creative blend was Hayward R Alker Alker and IR presents a set of visionary and original essays from scholars who have been profoundly influenced by Alker's approach to global studies They build on the foundation he laid demonstrating the practicality and usefulness of ethically grounded theoretically informed and interdisciplinary research for producing knowledge They show how substantive boundaries can be crossed and methodological rules rewritten in the search for a deeper more contextualized approach to global politics This book will be of interest to researchers and students of international relations and global politics **The War Puzzle Revisited** John A. Vasquez, 2009-07-23 A scientific explanation of the onset and expansion of war and the conditions of peace World Literature Reader Theo D'haen, César Domínguez, Mads Rosendahl Thomsen, 2012-06 World Literature is an increasingly influential subject in literary studies which has led to the re framing of contemporary ideas of national literatures language and translation World Literature A Reader brings together thirty essential readings which display the theoretical foundations of the subject as well as showing its conceptual development over a two hundred year period The book features an illuminating introduction to the subject with suggested reading paths to help readers navigate through the materials texts exploring key themes such as globalization cosmopolitanism post trans nationalism and translation and nationalism writings by major figures including J W Goethe Karl Marx Friedrich Engels Longxi Zhao David Damrosch Gayatri Chakravorty Spivak Pascale Casanova and Milan Kundera The early explorations of the meaning of Weltliteratur are introduced while twenty first century interpretations by leading scholars today show the latest critical developments in the field The editors offer readers the ideal introduction to the
