

Reading Reflection

Reading skill is my favorite skill to learn English. I like to read interesting articles about technology and science via Facebook's Newsfeed. To understand the information requires being good at reading and having plenty of vocabulary to understand the text. Moreover, when I want to relax, sometimes I read English novels to experience in the creative world. For students, reading skill is one of the important skills to comprehend or understand about new information through visual method. Students must know both plenty of vocabulary and the structure used in the sentences to comprehend the text given. For a teacher, there are various authentic sources of information for reading activities which depend on the topic that the teacher wants to teach or the students are interested in to learn. These are examples of reading activities shared by peers and Aj. Alix in Curriculum and Instruction in English 2 that I am interested in to apply them in my class in the future.

Jigsaw reading was very good activity for students because this activity made students learn in co-operative learning. Students learned not only academic knowledge, but they learned how to work in team with friends also. They summarized what they understood and then shared to friends with their own language and comprehension. This activity was great that students learned the content using reading techniques and thinking skill through the process of doing activity. I think this activity suits for high school students because they are familiar with how to work in complex steps and how to summarize the text. For young children, the text might be short like a folktale or fable that is easy to understand and remember.

For the reading activity from peers, I like Guessing game from Freya and Arissza. The students formed a circle and passed the ball until the music was stopped. The person who had the ball had to read the story and the other friends had to guess what the topic of the story being read was. This activity really motivated students because they had to pass the ball until the music was stopped. The point was nobody wanted to have the ball so they had to pass the ball as quickly as they could. This activity was good for young children to make them alert and happy to play and learn.

The activity I like the most is Scramble. The teacher let students to create a card of letter. Then the teacher would pronounce the word and the students had to mix the cards up to make the word given as quickly as they could. This activity was very interesting. My friends and I liked to play this game so much that I thought the time for this activity was short. As I
