Reform And Punishment The Future Of Sentencing:

Reform and Punishment Sue Rex, Michael Tonry, 2012-12-06 In this book a group of leading authorities in the field address the key issues surrounding the future of sentencing in Britain in the light particularly of the highly influential Halliday Report These proposals for reform amount to the single most ambitious and comprehensive set of proposals for reconstituting the sentencing system of a common law country and include proposals to replace existing sentencing statutes the establishment of a sentencing commission and sentencing guidelines and the creation of a sentence review function in the judiciary As well as addressing the major issues of the Halliday Report the chapters in this book go beyond this to explore the broader set of policy problems and implications which are raised drawing upon experiences of reform in other jurisdictions and contexts particularly that of the USA This book will be essential reading for anybody with an interest in the future of sentencing or the future direction of the criminal justice system as a whole **The Future of Imprisonment**

Michael Tonry, 2004-04-08 The imprisonment rate in America has grown by a factor of five since 1972 In that time punishment policies have toughened compassion for prisoners has diminished and prisons have gotten worse a stark contrast to the origins of the prison 200 years ago as a humanitarian reform a substitute for capital and corporal punishment and banishment So what went wrong How can prisons be made simultaneously more effective and more humane Who should be sent there in the first place What should happen to them while they are inside When how and under what conditions should they be released *The Future of Imprisonment* unites some of the leading prisons and penal policy scholars of our time to address these fundamental questions Inspired by the work of Norval Morris the contributors look back to the past twenty five years of penal policy in an effort to look forward to the prison s twenty first century future Their essays examine the effects of current high levels of imprisonment on urban neighborhoods and the people who live in them They reveal how current policies came to be as they are and explain the theories of punishment that guide imprisonment decisions Finally the contributors argue for the strategic importance of controls on punishment including imprisonment as a limit on government power chart the rise and fall of efforts to improve conditions inside analyze the theory and practice of prison release and evaluate the tricky science of predicting and preventing recidivism A definitive guide to imprisonment policies for the future this volume convincingly demonstrates how we can prevent crime more effectively at lower economic and human cost

The Future of Crime and Punishment William R. Kelly, 2019-05-20 Today we know that crime is often not just a matter of making bad decisions Rather there are a variety of factors that are implicated in much criminal offending some fairly obvious like poverty mental illness and drug abuse and others less so such as neurocognitive problems Today we have the tools for effective criminal behavioral change but this cannot be an excuse for criminal offending In *The Future of Crime and Punishment* William R Kelly identifies the need to educate the public on how these tools can be used to most effectively and cost efficiently reduce crime recidivism victimization and cost The justice system of the future needs to be much more

collaborative utilizing the expertise of a variety of disciplines such as psychology psychiatry addiction and neuroscience Judges and prosecutors are lawyers not clinicians and as we transition the justice system to a focus on behavioral change the decision making will need to reflect the input of clinical experts The path forward is one characterized largely by change from traditional criminal prosecution and punishment to venues that balance accountability compliance and risk management with behavioral change interventions that address the primary underlying causes for recidivism There are many moving parts to this effort and it is a complex proposition It requires substantial changes to law procedure decision making roles and responsibilities expertise and funding Moreover it requires a radical shift in how we think about crime and punishment Our thinking needs to reflect a perspective that crime is harmful but that much criminal behavior is changeable

Retributivism Has a Past Michael Tonry, 2011-12-12 A collection of essays by major figures in punishment theory law and philosophy that reconsiders the popularity and prospects of retributivism the notion that punishment is morally justified because people have behaved wrongly Alternatives to Prison Anthony Bottoms, Sue Rex, Gwen Robinson, 2013-01-11 As the UK and many other western societies face up to the consequences of a rapidly increasing prison population so the search for alternative approaches to punishment and dealing with offenders has become an increasingly urgent priority for government policy and society as a whole This book reports the results of the research programme commissioned by the Coulsfield Inquiry into Alternatives to Prison which was funded by the Esm e Fairbairn Rethinking Crime and Punishment initiative It is written by leading authorities in the field and provides a comprehensive authoritative and wide ranging review of the range of issues associated with the use of noncustodial sanctions examining experiences in Scotland and Northern Ireland as well as England and Wales **Reforming Community Penalties** Sue Rex, 2013-01-11 This book sets out to explore the role of community penalties in sentencing arguing that the absence of a strong intellectual framework or underpinning has hampered their development in policy and practice The research undertaken for this book involved asking people with a particular stake in criminal justice what the point of punishment was and what the courts were trying to achieve in sentencing offenders It identifies the role of communication as crucial and looks at ways in which communication can be used to make punishment more constructive exploring the role of restorative processes and considering the implications of the custody community provisions in the Criminal Justice Act 2003 Reforming Community Penalties is a major contribution to penological theory and thinking about sentencing and role in criminal justice and will be essential reading for all with a practitioner or academic interest in this subject Its findings are likely to play a key role in aiding the development and practice of community penalties and enabling them to command greater support and to become a genuine alternative to the increasing use of custody in sentencing and punishment Discretion, Discrimination and the Rule of Law Mrinal Satish, 2017 Aims to analyse whether unwarranted disparity existed in rape sentencing in India which anecdotal work of other scholars had pointed to Provided by publisher **Confronting Crime** Michael Tonry, 2013-10-11 From Labour s

promise to be tough on crime tough on the causes of crime through to the White Paper and new criminal justice legislation controlling crime and reforming the criminal justice system has been one of the government's key priorities This book provides a detailed review of the thinking behind these new plans and legislation looking at policies and proposals in the field of punishment particularly those embodied in the Halliday Review of the Sentencing Framework 2001 the government White Paper Justice for All 2002 and the 2002 Criminal Justice Bill The contributors to the book subject to scrutiny the evidence for the evidence based policy making that is often claimed as a distinctive new feature to these processes examining approaches to drug dependent offenders dangerous sex offenders nuisance offenders procedural and evidential protections in the courts sentencing guidelines sentencing management racism in sentencing custody plus custody minus and reducing the prison population
