Reform and Insurrection in Bourbon New Granada and Peru John Robert Fisher, Allan J. Kuethe, Anthony McFarlane, 1990-01-01 **Bourbon Peru, 1750-1824** John Robert Fisher, 2003-01-01 Elizabeth A Kaye specializes in communications as part of her coaching and consulting practice She has edited Requirements for Certification since the 2000 01 edition *Indian and Slave Royalists in the Age of Revolution* Marcela Echeverri, 2016-04-25 Marcela Echeverri draws a picture of the royalist region of Popayán in modern day Colombia that reveals deep chronological layers and multiple social and spatial textures She uses royalism as a lens to rethink the temporal spatial and conceptual boundaries that conventionally structure historical narratives about the Age of Revolution *From Dust to Digital* Maja Kominko, 2015-02-16 Much of world's documentary heritage rests in vulnerable little known and often inaccessible archives Many of these archives preserve information that may cast new light on historical phenomena and lead to their reinterpretation But such rich collections are often at risk of being lost before the history they capture is recorded This volume celebrates the tenth anniversary of the Endangered Archives Programme at the British Library established to document and publish online formerly inaccessible and neglected archives from across the globe From Dust to Digital showcases the historical significance of the collections identified catalogued and digitised through the Programme bringing together articles on 19 of the 244 projects supported since its inception These contributions demonstrate the range of materials documented including rock inscriptions manuscripts archival records newspapers photographs and sound archives and the wide geographical scope of the Programme Many of the documents are published here for the first time illustrating the potential these collections have to further our understanding of history *The Enlightenment in Iberia and Ibero-America* Brian Hamnett, 2017-03-23 This book discusses responses to the challenges faced by two different Iberian imperial systems in their struggle to sustain territorial integrity and economic interests in the face of international competition During a so called period of Enlightened Despotism absolutist governments in Spain and Portugal sought to harness Enlightenment ideas to their policies of reform The Iberian Enlightenment however did not rely exclusively on government sponsorship it had existing foundations in sixteenth century Spanish humanism and subsequent attempts at reform and educated individuals in major cities frequently operated independently of government The Enlightenment contributed greatly to the availability of potential political solutions to the urgent matter of political status in the attempt to transform absolutist governments into constitutional systems and drawing in the process on the structures of medieval foundations contemporary revolutions or less radical constitutional monarchies or a combination of sources more closely aligned with Ibero American realities *Salt and the Colombian State* Joshua M. Rosenthal, 2014-08-23 In republican Colombia salt became an important source of revenue not just to individuals but to the state which levied taxes on it and in some cases controlled and profited from its production The salt trade consistently accounted for roughly 10 percent of government income In the town of La Salina de Chita in Boyacá province thermal springs

offered vast amounts of salt and its procurement and distribution was placed under the jurisdiction of the Ministry of Finance Focusing his study on La Salina Joshua M Rosenthal presents a fascinating glimpse into the workings of the early Colombian state its institutions and their interactions with local citizens during this formative period Although historians have cited the state s weakness and in many cases its absence in local affairs Rosenthal counters these assumptions by documenting the primary role the state held in administering contracts inspections land rights labor and trade in La Salina contending that this was not an isolated incident He also uncovers the frequent interaction between the state and local residents who used the state s liberal rhetoric to gain personal economic advantage Seen through the lens of the administration of La Salina s saltworks Rosenthal provides a firsthand account of the role of local institutions and fiscal management in the larger process of state building His study offers new perspectives on the complex network of republican Colombia s political culture and its involvement in provincial life across the nation

Deconstructing Legitimacy Patricia H. Marks, 2010-11 The overthrow of Viceroy Joaquín de la Pezuela on 29 January 1821 has not received much attention from historians who have viewed it as a simple military uprising Yet in this careful study of the episode based on deep archival research Patricia Marks reveals it to be the culmination of decades of Peruvian opposition to the Bourbon reforms of the late eighteenth century especially the Reglamento de comercio libre of 1778 It also marked a radical change in political culture brought about by the constitutional upheavals that followed Napoleon s invasion of Spain Although Pezuela s overthrow was organized and carried out by royalists among the merchants and the military it proved to be an important event in the development of the independence movement as well as a pivotal factor in the failure to establish a stable national state in post independence Peru The golpe de estado may thereby be seen as an early manifestation of Latin American praetorianism in which a sector of the civilian population unable to prevail politically and unwilling to compromise pressures army officers to act in order to save the state

A History of Latin America to 1825, 2009-12-21 The updated and enhanced third edition of A History of Latin America to 1825 presents a comprehensive narrative survey of Latin American history from the region s first human presence until the majority of Iberian colonies in America emerged as sovereign states c 1825 This edition features new content on the history of women gender Africans in the Iberian colonies and pre Columbian peoples Includes more illustrations to aid learning over 50 figures and photographs several accompanied by short essays Concentrates on the colonial period and earlier expanding coverage of the period and incorporating more social and cultural history with the political narrative Part of The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very

large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production The Cambridge History of Nationhood and Nationalism: Volume 2, Nationalism's Fields of Interaction Cathie Carmichael,Matthew D'Auria,Aviel Roshwald,2023-11-09 This major new reference work with contributions from an international team of scholars provides a comprehensive account of ideas and practices of nationhood and nationalism from antiquity to the present It considers both continuities and discontinuities engaging critically and analytically with the scholarly literature in the field In volume II leading scholars in their fields explore the dynamics of nationhood and nationalism s interactions with a wide variety of cultural practices and social institutions in addition to the phenomenon s crucial political dimensions The relationships between imperialism and nationhood nationalism and between major world religions and ethno national identities are among the key themes explained and explored The wide range of case studies from around the world brings a truly global comparative perspective to a field whose study was long constrained by Eurocentric assumptions **The History of a Periphery** Juliet B.
