Previous Convictions at Sentencing

Julian V Roberts, Andreas von Hirsch, 2014-10-01 This latest volume in the Penal Theory and Penal Ethics series addresses one of the oldest questions in the field of criminal sentencing should an offender's previous convictions affect the sentence Although there is an extensive literature on the definition and use of criminal history information the emphasis here is on the theoretical and normative aspects of considering previous convictions at sentencing Several authors explore the theory underlying the practice of mitigating the punishments for first offenders while others put forth arguments for enhancing sentences for recidivists Hearings, Reports and Prints of the House Select Committee on Crime United States. Prosecuting and Punishing Multi-Offenders in the EU Nele Audenaert, Wendy De Bondt, 2021-07-01 This book elaborates on the rules governing the prosecution and sentencing of multi offenders The term multi offender is used for an offender that has committed a series of offences either in one single act or in different acts hence the addition of multi in multi offender A crucial element thereto is that the whole series of offences which make the offender a multi offender has been committed before being subject to a final conviction A comparative EU study was conducted focussing on the rules governing multi offenders within different EU Member States It reveals that this type of offenders challenge both the legislator and the prosecution and judges when the offences are prosecuted in one go the challenges are linked to finding an appropriate way to assess the severity of the criminal behaviour if however the offences are prosecuted in several simultaneous or consecutive proceedings the challenges are linked to taking account of the simultaneous or past proceeding These challenges only grow if proceedings take place in different EU Member States The analysis presented in this book is essential reading for EU policy makers national policy makers academics and defence lawyers throughout the EU working with multi offenders Undoubtedly it will be an asset to their work in both mere national as well as in cross border cases

Hearings, Reports and Prints of the Senate Committee on the Judiciary United States. Congress. Senate. Committee on the Judiciary, 1978 *Policing Suspicion* Eleanor Bland, 2021-11-04 Policing Suspicion is an innovative

examination of policing practices and the impact of these on patterns of arrest and prosecution in London 1780 1850 The work establishes and defines the idea of proactive policing in historical context where police officers exercised discretion to arrest defendants on suspicion that they had recently committed or were about to commit an offence Through detailed examination of primary sources including the Old Bailey Proceedings newspaper reports instructions for police officers

archival records of policing practices and Select Committee reports the book examines the reasons given for arrests and the characteristics of those arrested. Suggesting that individual police officers made active choices using their discretion, the book highlights how policing practices affected the received record of criminal activity. It also explores continuities and changes in policing practices before and after the establishment of the Metropolitan Police force in 1829, examining the expectations placed on the various officials responsible for law enforcement. The book contends that policing practices and proactive officers themselves contributed to the prevalence of criminal stereotypes. Beyond the historical, the book is situated within criminological frameworks around policing and preventive justice, noting parallels between historical policing based on suspicion and contemporary police powers such as stop and search. Speaking to issues of wider significance for criminologists by examining interactions between the police and suspects and reflecting on police decision making processes, the book offers an original approach to those researching both the history of crime and policing and criminology and criminal justice more broadly.

The interdisciplinary study of human behavior in legal contexts includes numerous topics on criminal behavior criminal justice policies and legal process crime detection and prevention eyewitness identification prison life offender assessment and rehabilitation risk assessment and management offender mental health community reintegration and juvenile offending. The study of these topics has been increasing continually since the late 1800s with people trained in many legal professions such as policing social work law academia mental health and corrections. This will be a comprehensive work that will provide the most current empirical information on those topics of greatest concern to students who desire to work in these fields. This encyclopedia is a unique reference work that looks at criminal behavior primarily through a scientific lens. With over 500 entries, the book brings together top empirically driven researchers and clinicians across multiple fields: psychology criminology social work and sociology to explore the field.

Sentencing Multiple Crimes Jesper Ryberg, Julian V. Roberts, Jan Willem de Keijser, 2018

Sentencing Multiple Crimes confronts the practical and theoretical challenges for the criminal justice system when punishing multiple crime offenders, including the proportionality of the crimes committed, the temporal span between the crimes, and the relationship between theories about the punitive treatment of recidivists and multiple offenders. It provides a comprehensive examination of the dynamics involved with sentencing multiple offenders from the perspective of several legal theories.
