**and the Network Society** Robert Hassan, 2004-03-16 What is the network society What effects does it have upon media culture and politics What are the competing forces in the network society and how are they reshaping the world The rise of the network society the suffusion of much of the economy culture and society with digital interconnectivity is a development of immense significance In this innovative book Robert Hassan unpacks the dynamics of this new information order and shows how they have affected both the way media and politics are played and how these are set to reshape and reorder our world Using many of the current ideas in media theory cultural studies and the politics of the newly evolving networked civil society Hassan argues that the network society is steeped with contradictions and in a state of deep flux This is a key text for undergraduate students in media studies politics cultural studies and sociology and will be of interest to anyone who wishes to understand the network society and play a part in shaping it **Manuel Castells** Felix Stalder, 2006-03-27 It has earned

him favourable comparisons to Marx and Weber **Self-Organization and the City** Juval Portugali, 1999-11-22 This book

integrates the theories of complex self organizing systems with the rich body of discourse and literature developed in what might be called social theory of cities and urbanism It uses techniques from dynamical complexity and synergetics to successfully tackle open social science questions

**The Rise of the Networking Region** Are Vegard Haug, 2016-02-17

How regions and cities adapt to a Network Society and a globalized environment the policies they pursue and how structures of governance are transformed in the pursuit of those policies are major themes in this volume These issues are addressed with specific reference to the Nordic regions of Europe Covering the four Nordic countries of Denmark Finland Norway and Sweden plus the Faroe Islands this volume charts the changes in networking activities and related development initiatives that have taken place over the last ten years This means analysing regions in their pursuit of new policies partnerships and styles of representation Through this process regions are becoming partners and players in European integration and a movement of integrative regionalism is taking shape which is different from inward looking identity regionalism or self centred competitive regionalism and takes regions beyond lobbying in Brussels

**Network Society** Roberta Iannone, Emanuela Ferreri, Maria Cristina Marchetti, Laura Mariottini, Manuela Ciprì, 2020-10-06

The present volume attempts to critically evaluate claims that modern society may be read and understood as a network Accepting that this perspective holds some potential the question becomes how to best capitalize on it To analyze society as a network means to respond not only to the actual needs but also to highlight the opportunities and the utilities and to investigate whether society is increasingly relational or just perceived as such as e g digital social networks and related concepts exemplify From a strictly scientific perspective to answer the question how to read society as a network means to ask ourselves a if the conceptual categories especially the concepts of structure and exchange and the paradigms of traditional analysis holism and individualism both in the functionalist and the conflictive versions are still sufficient b if new conceptual categories theories instruments are needed to represent more properly the reality we face to investigate it to explain it or at least to understand it Starting from a reflection on already established social networks Scott 2003 the fundamental differences between groups and networks Vergati 2008 the logics of networks Serra 2003 as well as social capital formation and links Di Nicola 2006 Mutti 1998 we seize the spatial dynamics seemingly following opposite paths but which revert to a common denominator de spatialization and re spatialization namely the processes of dematerialization of space s and its reconstruction by specific relational dynamics and forms The study of networks is therefore not attributable to a single theory but to several theories converging towards a unique perspective spaces and logical reasoning Serra 2001 each one with its own uniqueness The strength of this volume and the difference with respect to other attempts at explaining the Network Society lies in the multidimensional and interrelated perspectives it offers emerging from converging multidisciplinary perspectives sociological anthropological and linguistic and from applications that the Network Society provides namely international European Governance institutional public linguistic landscape of the city of Rome and mediated ones communication technology

End of Millennium, Volume III: The Information Age: Economy, Society and Culture Manuel Castells, 2000-08-15 The final volume in Manuel Castells trilogy is devoted to processes of global social change induced by interaction between networks and identity

**Pierre Musso and the Network Society** José Luís Garcia, 2017-01-31 This book is devoted to discussion of the views of Pierre Musso and starts with a central chapter written by Musso entitled Network Ideology from Saint Simonianism to the Internet Pierre Musso is a French philosopher and is one of the most original thinkers in the history of the network society His thought develops a critique of information and communication technologies through their imaginary and social representations and of the information society based on the network metaphor The main question on which Musso has focused his attention is how the network metaphor is one of the most powerful ways of understanding the complex societies in which we live Showing characteristic attention to detail and drawing on the history of ideas political philosophy and sociology Musso traces the genealogy of the network imaginary and points out that it did not emerge with the Internet He shows how its modern roots can be found in Henri de Saint Simon and his disciples engineers and entrepreneurs such as Michel de Chevalier and Barth lemy Prosper Enfantin who developed channel networks railroads and the telegraphic network in France in the nineteenth century In addition to the central piece written by Musso the book includes a general introduction and six commentaries from experts on information technologies and networks It displays a wide range of perspectives from a diverse set of authors in terms of nationalities and universities as well as disciplinary backgrounds

*Structural Change and Evolution of China's Internet Society* Liu Shaojie, 2022-11-28 This title investigates China's network society both its online cyber society and offline real world society by analyzing the trends and social foundations of society as network and the social challenges it poses as well as structural changes in social space and social interaction The first part of the book examines how network society in China forms and develops analyzing the challenges and structural changes it poses The author studies network power and uncertainties that lies in the supply flow and reception of a massive amount of information revealing how this influences the government's administrative power as well as governance measures to stabilize social cohesion The second part first discusses the social restructuring and characteristics of network social space in China Based on case studies of several momentous social events the spatial change characterized by an integration of absence and presence space and its influence on social interaction and experience is elucidated including active absence interaction mediated experience spatial representation and social identities of network aggregation The book will be a crucial reference for scholars and students studying sociology network sociology and contemporary Chinese society

**The Multivoiced Body** Fred Evans, 2009-03-30 Ethnic cleansing and other methods of political and social exclusion continue to thrive in our globalized world complicating the idea that unity and diversity can exist in the same society When we emphasize unity we sacrifice heterogeneity yet when we stress diversity we create a plurality of individuals connected only by tenuous circumstance As long as we remain tethered to these binaries as long as we are unable to imagine the sort of society we want in an age of diversity we cannot achieve an enduring solution to conflicts that continue unabated despite our increasing proximity to one another By envisioning the public as a multivoiced body Fred Evans offers a solution to the dilemma of diversity The multivoiced body is both one and many heterogeneous voices that at once separate and bind themselves together through their continuous and creative interplay By focusing on this traditionally undervalued or overlooked notion of voice Evans shows how we can valorize simultaneously the solidarity diversity and richness of society Moreover recognition of society as a multivoiced body helps resist the pervasive countertendency to raise a chosen discourse to the level of one true God pure race or some other oracle that eliminates the dynamism of contesting voices To support these views Evans taps the major figures and themes of analytic and continental philosophy as well as modernist postmodernist postcolonial and feminist thought He also turns to sources outside of philosophy to address the implications of his views for justice citizenship democracy and collective as well as individual rights Through the seemingly simple conceit of a multivoiced body Evans straddles both philosophy and political practice confronting issues of subjectivity language communication and identity For anyone interested in moving toward a just society and politics The Multivoiced Body offers an innovative approach to the problems of human diversity and ethical plurality

**Networked Sociability and Individualism: Technology for Personal and Professional Relationships** Comunello, Francesca, 2011-11-30 The recent popularity of Social Network Sites SNS shows that there is a growing interest in articulating making visible and managing personal or professional relationships through technology enabled environments Networked Sociability and Individualism Technology for Personal and Professional Relationships provides a multidisciplinary framework for analyzing the new forms of sociability enabled by digital media and networks This book focuses on a variety of social media and computer mediated communication environments with the aim of identifying and understanding different types of social behavior and identity expression

*Precarious Times* Anne Fuchs, 2019-10-15 In *Precarious Times* Anne Fuchs explores how works of German literature film and photography reflect on the profound temporal anxieties precipitated by contemporary experiences of atomization displacement and fragmentation that bring about a loss of history and of time itself and that is peculiar to our current moment The digital age places premiums on just in time deliveries continual innovation instantaneous connectivity and around the clock availability While some celebrate this 24 7 culture others see it as profoundly destructive to the natural rhythm of day and night and to human happiness Have we entered an era of a perpetual present that depletes the future and erodes our grasp of the past Beginning its examination around 1900 when rapid modernization was accompanied by comparably intense reflection on changing temporal experience *Precarious Times* provides historical depth and perspective to current debates on the digital now Expanding the modern discourse on time and speed Fuchs deploys such concepts as

attention slowness and lateness to emphasize the uneven quality of time around the world      *A Field Guide to Methodist Fresh Expressions* Michael Adam Beck, 2020-03-23 According to Fresh Expressions U S a Fresh Expression is a form of church for our changing culture established primarily for the benefit of those who are not yet part of any church Fresh Expressions are introducing people to Jesus expanding the kingdom and revitalizing churches Congregations need a practical and theological resource that can help them cultivate Fresh Expressions As consultants who work nationwide and as innovative pastors authors Michael Beck and Jorge Acevedo awaken congregational leaders and ministry teams to a distinctive Wesleyan approach for the Fresh Expressions movement In Wesleyan Fresh Expressions they show congregations how to cultivate and customize fresh expressions that fit their local context They motivate ministry teams to take risks experiment and when necessary fail well On April 2 1739 John Wesley went to a field just outside what was then the city limits of Bristol England There he tried a missional innovation called field preaching Thousands of people showed up many of whom who had no connection with a church Today most Methodists and other Wesleyans don t know their own story Lost in the milieu of divisive issues that threaten to tear the church apart Wesleyans have forgotten their DNA as a renewal movement born not from doctrinal disputes but from a missional imperative In this sense the Fresh Expressions movement is the most Methodist thing in the denomination today This iteration of the Spirit is taking it to the fields again Wesleyan Fresh Expressions will help guide the way      *An Ecumenical Field Guide For Fresh Expressions* Michael Adam Beck, 2024-08-20 Learn the essentials of fresh expressions for your church An Ecumenical Field Guide for Fresh Expressions is a practical manual for understanding and implementing Fresh Expressions for a church in any denominational setting The Fresh Expressions movement is a new way of thinking about the local church and a new way of doing church as a congregation It refers to new fresh iterations or types expressions of ministry usually outside the confines of the church building These iterations or types of ministries are formed intentionally but organically out in the community where people are They are based on shared activities or interests where people are gathering already and where the people are open to or interested in learning about Jesus Christian people share their own stories of how Jesus is part of their lives Often these gatherings become regular and increasingly begin to adopt the practices of a church community like worship service study and giving Thus they become fresh expressions of the church from which they sprang
