Sharing The Harvest A Guide To Communitysupported Agriculture:

Sharing the Harvest Elizabeth Henderson, Robyn Van En, 2007-11-01 To an increasing number of American families the CSA community supported agriculture is the answer to the globalization of our food supply The premise is simple create a partnership between local farmers and nearby consumers who become members or subscribers in support of the farm In exchange for paying in advance at the beginning of the growing season when the farm needs financing CSA members receive the freshest healthiest produce throughout the season and keep money jobs and farms in their own community In this thoroughly revised and expanded edition of a Chelsea Green classic authors Henderson and Van En provide new insight into making CSA not only a viable economic model but the right choice for food lovers and farmers alike Thinking and buying local is quickly moving from a novel idea to a mainstream activity The groundbreaking first edition helped spark a movement and with this revised edition *Sharing the Harvest* is poised to lead the way toward a revitalized agriculture

Jennifer-Claire V. Klotz, 2001 **Accelerating Social Change** Luigi Morelli, 2021-11-03 Social change is more than a political statement or demand it is a moral and spiritual imperative If this is so then it involves the whole human being in the way he perceives and thinks feels and relates and acts on and impacts the world This work gathers the threads of pioneers and visionaries in various aspects of social and cultural renewal Paradigms of include and transcend offer us paths along which the personal and the global are intimately intertwined Through established pathways and processes we can experiment with new ways of being as we impact our immediate world Practically speaking this book explores three avenues to change At a first level we can start to recognize that society is built around three poles Besides the public and private sectors civil society has emerged to play a crucial role and alter dualistic thinking If we think beyond capitalism and socialism and all their variations and combinations new unthought of frontiers and possibilities emerge It is possible to expand our practice of democracy beyond the majority minority dynamics to the inclusion of all stakeholders A new art and science of civic collaboration can break the gridlocks of polarization and opposition We can engage in a new area of honest energetic collaboration moving beyond weak compromise through an array of social tools that have grown in the last forty to fifty years and have now reached full maturity Lastly we can expand organizational and social forms in ways that completely break away from the past We can reconcile both entrepreneurial and participatory paradigms and transcend top down or bottom up models in ways that our intellect alone cannot fathom Paradigms offer generous visions but are also exacting masters The new revolution will request as much of ourselves as we will request of the world *The Winter Harvest Handbook* Eliot Coleman, 2009 Celebrated farming expert Coleman continues to lead the way in organic gardening pushing the limits of the harvest season while working his world renowned organic farm in Harborside Maine [The Handbook of Diverse Economies](#) J.K. Gibson-Graham, Kelly Dombroski, 2020-02-28 Economic diversity abounds in a more than capitalist

world from worker recuperated cooperatives and anti mafia social enterprises to caring labour and the work of Earth Others from fair trade and social procurement to community land trusts free universities and Islamic finance The Handbook of Diverse Economies presents research that inventories economic difference as a prelude to building ethical ways of living on our dangerously degraded planet With contributing authors from twenty countries it presents new thinking around subjectivity and methodology as strategies for making other worlds possible

Remaking the North American Food System C. Clare Hinrichs, Thomas A. Lyson, 2007 Examines the resurgence of interest in rebuilding the links between agricultural production and food consumption With examples from Puerto Rico to Oregon to Quebec this work offers a North American perspective attuned to trends toward globalization at the level of markets and governance and shows how globalization affects specific localities

Urban Agriculture Craig Pearson, 2011-05-17 Most of us live in cities These are becoming increasingly complex and removed from broad scale agriculture Yet within cities there are many examples of greenspaces and local food production that bring multiple benefits that often go unnoticed This book presents a collection of the latest thinking on the multiple dimensions of sustainable greenspace and food production within cities It describes the diversity of urban agriculture and seeks a balanced representation between the biophysical and the social It deals with urban agriculture across scales from indoor plants to farm scale filtration of greywater A range of examples and initiatives from both developed and developing countries is described and evaluated

The Organic Farmer's Business Handbook Richard Wiswall, 2009-09-30 Publisher's description

Agroecology Stephen R. Gliessman, 2007 Providing the theoretical and conceptual framework for this continually evolving field Agroecology The Ecology of Sustainable Food Systems Second Edition explores environmental factors and complexities affecting agricultural crops and animals Completely revised updated and reworked the second edition contains new data new readings new issues and case studies and new options It includes two completely new chapters one on the role of livestock animals in agroecosystems and one on the cultural and community aspects of sustainable food systems The author clearly delineates the importance of using an ecosystem framework for determining if a particular agricultural practice input or management decision contributes or detracts from sustainability He explains how the framework provides the ecological basis for the functioning of the chosen management strategy over the long term He also examines system level interactions stressing the need for understanding the emergent qualities of populations communities and ecosystems and their roles in sustainable agriculture Using examples of farming systems in a broad array of ecological conditions the book demonstrates how to use an ecosystem approach to design and manage agroecosystems for sustainability
