Portrait of the Manager as a Young Author Philipp Schonthaler, 2018-09-18 What happens to the relationship between business and literature when storytelling becomes a privileged form of communication for organizations Corporations love a good story Microsoft employs a chief storyteller who heads a team of twenty five corporate storytellers IBM Coca Cola and the World Bank are among other organizations that have worked with storytelling methods And of course Steve Jobs was famous for his storytelling Today narrative is a privileged form of communication for organizations In Portrait of the Manager as a Young Author Philipp Schonthaler explains this unlikely alliance between business and storytelling The contradictions are immediately apparent If as the philosopher Hans Blumenberg writes stories are told to pass the time managers would seem to have little time to spare And yet Schonthaler reports stories are useful in handling complexity When digital information flows too quickly and exceeds the capacity of the human brain narrative can provide communicative efficiency and effectiveness Words and numbers both vouch for truth are both instrumentalized by management and are inextricably interdependent What happens if narrative becomes ubiquitous Does the commercialization of narratives have an effect on literature Through the lens of storytelling Schonthaler explores the relationship between economics and literature and describes a form of writing that takes place in their shared spheres Most books on storytelling in the corporate world are written by business writers this book offers the perspective of an award winning literary author who considers both the impact of storytelling on business and the impact of business on literature
