J.G. Cheock, 2017-10-02 World myth deciphered and organized into a coherent story of our past It is almost impossible to read world mythology without noticing common threads and patterns that seem to paint a bigger picture A story told by our ancient ancestors for future generations to remember

and learn What if the eyewitnesses to past events were taken seriously What if we listen to their stories with unbiased ears free of assumptions What if their stories were backed up by scientific discoveries What if the myths can explain the mysteries

Frohne, 2015-10-09 In 1991 archaeologists in lower Manhattan unearthed a stunning discovery Buried for more than 200 years was a communal cemetery containing the remains of up to 20 000 people At roughly 6.6 acres the

African Burial Ground is the largest and earliest known burial space of African descendants in North America. In the years that followed its discovery, citizens and activists fought tirelessly to demand respectful treatment of eighteenth century funerary remains and sacred ancestors. After more than a decade of political battle on local and national levels and scientific research at Howard University, the remains were eventually reburied on the site in 2003. Capturing the varied perspectives and the emotional tenor of the time, Frohne narrates the story of the African Burial Ground and the controversies surrounding urban commemoration. She analyzes both its colonial and contemporary representations, drawing on colonial era maps, prints, and land surveys to illuminate the forgotten and hidden visual histories of a mostly enslaved population buried in the African Burial Ground. Tracing the history and identity of the area from a forgotten site to a contested and negotiated space, Frohne situates the burial ground within the context of late twentieth and early twenty-first century race relations in New York City to reveal its enduring presence as a spiritual place.

Twin Memoirs Volume 1 Robert W. W. Parsons, 2017-09-21. Do you know your ancestry? Your parents, grandparents, great grandparents, and great great grandparents? Have you taken the time to document your life since the day of your birth? I do, and I did. In Volume 1, I'll take you back to the old countries of France and Italy where my story begins with my great great grandparents. Their offspring came to America, the first generation of Americans. I'll guide you through the second generation who gave birth to our parents, the third generation. And then Michael and I, Matlin and Michael DeMarco, were born. We write about our lives, the ups and downs, the good and bad, the rags to riches journey. I'll introduce you to my life-long friends in a future volume and how each one impacted our lives. Coincidences and mysteries are constantly being revealed through our story. If you have a question about our journey, wait for it will be revealed. Myths and legends come to life and no longer are the fiction we thought them to be. *Twin Memoirs* is a series of 10 books in 5 volumes. The series began with the publication of a dream I had about mortality and space travel that was eventually fulfilled in my senior years. The dream was interrupted by a phone call. This book, *The Flight of the Revelation*, elaborates on the unfinished dream in the style of fiction. Between volumes 4 and 5, *Revolution* will be published, going into detail about the dream Michael had about immortality while on his death bed. Will the fifth generation come to fruition? You might wonder when you learn of the lifestyles that Michael and I led. But like I said, our lives, especially mine, were ever evolving. Will I have grandkids? Them being of the sixth generation. Volume 1, Books 1 and 2, will tell you of my ancestry and bring you up to date through our high school years. These are the years that those mysteries pile up.

Maskarinec, 1995

It is impossible to discuss what shamans are and what they do contends Gregory G Maskarinec without knowing what shamans say When Maskarinec took an interest in shaman rituals on his first visit to Nepal he was told by many Nepalis and Westerners that the shamans he had encountered in the Himalayan foothills of western Nepal engaged in meaningless mumblings But in the course of several years of fieldwork he learned from the shamans that both their long publicly chanted rituals and their whispered secretive incantations are oral texts meticulously memorized through years of training In *The Rulings of the Night* he shows how the shamans during their dramatic night long performances create the worlds of words in which shamans exist Maskarinec analyzes several complete repertoires of the texts that the shamans use to diagnose and treat afflictions that trouble their clients Through these texts they intervene to manipulate and change the world replacing its unbalanced inexpressible chaos with orderly balanced grammatical and eloquently expressible states They negotiate the relations between language action and social realities providing a well constructed and thoroughly consistent intentional universe and only in that universe can all shaman actions and beliefs be fully comprehended
