Long Walk On A Short Dock:

Modest Mouse's The Moon & Antarctica Zachary Petit,2024-11-14 In 1999 Modest Mouse struck out for Chicago to record their major label debut for Epic Records Amid indie circle cries of sellouts a largely untested producer and a half built studio the trio recorded the instrumental basics of The Moon Antarctica and then singer songwriter Isaac Brock got his face smashed by a hooligan in a park With barely any vocals recorded Brock emerged from the hospital with his jaw completely wired shut and returned to a mostly empty studio And there on a diet of painkillers in a neighborhood that wanted to purge the band from its borders a creative alchemy took place that would redefine Modest Mouse and indie rock at large The fact that the band finished the album at all is surprising The fact that it is now considered by critics as hands down one of the greatest records ever made NME is perhaps an utter miracle The Moon Antarctica is an album so strange and enigmatic from those sweet opening notes to the plunging depths of the middle to the shocking furious end that you almost hesitate to listen to it again for fear of it losing its chaotic magic But then you do and you discover all new sounds a lost harmonic here a stray percussion element there a fresh interpretation of a lyric that leaves you thunderstruck And that ever looming question years on How the hell did Modest Mouse pull this off

Christ at the Crux Paul Cumin,2014-06-20 How can Christian theology confess God as both other than the world and also

related to it in a way that compromises neither of these Most modern thought has offered a simple reply it cannot Christ at the Crux analyzes one element of the roots of this denial and charts a route toward rapprochement The Christologies of eight theologians offer various attempts to relate the Creator and the creature in Christ Irenaeus of Lyon Cyril of Alexandria John Philoponus Martin Luther John Calvin John Zizioulas Robert Jenson and Colin Gunton Within the patristic era the question is grounded in theology about the incarnation with the Reformers the focus is on the mediation between creation and Creator and with the three modern theologians the breadth of the issue is completed with theology proper Together these eight offer a grand scale perspective on much of the christological possibilities for conceiving the relation between God and everything else In the end Paul Cumin shows how the doctrine of the Trinity appears to open new possibilities for Christology and in particular for the way theology about the Spirit enables a reimagining of those items of Christian thought most likely at the roots of our modern rejection of God as other
