Approaches to Teaching Milton's Paradise Lost Peter C. Herman, 2012-12-01 This second edition of Approaches to Teaching Milton's Paradise Lost addresses Milton in the light of the digital age, new critical approaches to his poem, and his continued presence in contemporary culture. It aims to help instructors enliven the teaching of Paradise Lost and address the challenges presented to students by the poem: the early modern syntax and vocabulary, the political and theological contexts, and the abounding classical references. The first part of the volume, Materials, evaluates the many available editions of the poem, points to relevant reference works, recommends additional reading, and outlines useful audiovisual and online aids for teaching Milton's epic poem. The essays in the second part, Approaches, are grouped by several themes: literary and historical contexts, characters, poetics, critical approaches, classrooms, and performance. The essays cover epic conventions and literary and biblical allusions, new approaches such as ecocriticism and masculinity studies, and reading Milton on the Web, among other topics.

Transcendence and Spirituality in Japanese Cinema Melissa Croteau, 2022-11-14 This book explores significant representations of Shinto and Buddhist sacred space, spiritual symbols, and religious concepts that are embedded in the secular framework of Japanese films aimed at general audiences in Japan and globally. These cinematic masterpieces by directors Akira Kurosawa, Hayao Miyazaki, Hirokazu Koreeda, and Makoto Shinkai operate as expressions of, and potentially catalysts for, transcendence of various kinds, particularly during the Heisei era (1989-2019) when Japan experienced severe economic hardship and devastating natural disasters. The book's approach to aesthetics and religion employs the multifaceted concepts of *ma* (structuring intervals), *liminal space*, *time*, *k* (emptiness), *sky*, *mono no aware* (compassionate sensibility), *resigned sadness*, and *musubi* (generative interconnection), examining the dynamic, evolving nature of these ancient principles that are at once spiritual, aesthetic, and philosophical. Scholars and enthusiasts of Japanese cinema, live action, and anime, religion, and film, cinematic aesthetics, and the relationship between East Asian religions and the arts will find fresh perspectives on these in this book, which moves beyond conventional notions of transcendental style and essentialized approaches to the multivalent richness of Japanese aesthetics.
