**The Female Body in the Looking-Glass** Basia Sliwinska, 2016-06-29 In his theory of the mirror stage the psychoanalyst and psychiatrist Jacques Lacan argued that the female body is defined by its lack of male attributes Within this framework he described female sexuality primarily as an absence and assumed female subordination to the male gaze However what happens if one follows Jean Baudrillard s advice to swallow the mirror and go through the looking glass to explore the reflections and realities that we encounter in the cultural mirror which reflects the culture in question its norms ideals and values What if the beautiful is inverted and becomes ugly and the ugly is considered beautiful or shape shifts into something conventionally thought of as beautiful These are the fundamental questions that Basia Sliwinska poses in this important new enquiry into gender identity and the politics of vision in contemporary women s art Through an innovative discussion of the mirror as a metaphor Sliwinska reveals how the post 1989 practices of woman artists from both sides of the former Iron Curtain such as Joanna Rajkowska Marina Abramovic Boryana Rossa Natalia LL and Anetta Mona Chisa and Lucia Tkacova go beyond gender binaries and instead embrace otherness and difference by playing with visual tropes of femininity Their provocative works offer alternative representations of the female body to those seen in the cultural mirror Their art challenges and deconstructs patriarchal representations of the social and cultural other associated with visual tropes of femininity such as Alice in Wonderland Venus and Medusa *The Female Body in the Looking Glass* makes a refreshing radical intervention into art theory and cultural studies by offering new theoretical concepts such as the mirror and genderland inspired by Alice s adventures in Wonderland as critical tools with which we can analyse and explain recent developments in women s art

*Narrating the Visual in Shakespeare* Richard Meek, 2017-03-02 This book examines Shakespeare's fascination with the art of narrative and the visuality of language. Richard Meek complicates our conception of Shakespeare as either a man of the theatre or a literary dramatist, suggesting ways in which his works themselves debate the question of text versus performance. Beginning with an exploration of the pictorialism of Shakespeare's narrative poems, the book goes on to examine several moments in Shakespeare's dramatic works when characters break off the action to describe an absent offstage event, place, or work of art. Meek argues that Shakespeare does not simply prioritise drama over other forms of representation, but rather that he repeatedly exploits the interplay between different types of mimesis: narrative, dramatic, and pictorial, in order to beguile his audiences and readers. Setting Shakespeare's works in their literary and rhetorical contexts and engaging with contemporary literary theory, the book offers new readings of *Venus and Adonis*, *The Rape of Lucrece*, *Hamlet*, *King Lear*, and *The Winter's Tale*. The book will be of particular relevance to readers interested in the relationship between verbal and visual art theories of representation and mimesis, Renaissance literary and rhetorical culture, and debates regarding Shakespeare's status as a literary dramatist.
