Rony Alfandary,2018-09-27 A Psychoanalytic Study of Lawrence Durrell s The Alexandria Quartet Exile and Return focuses on the dialogue created by literature and psychoanalysis in an individual s quest to explore existential issues such as a sense of belonging to a homeland and a recurring sense of the Uncanny das unheimliche Rony Alfandary explores Durrell s attempt to recreate a sense of belonging to a homeland which perhaps never existed but can be retraced and reinvented through writing This book studies some issues present in Durrell s work the connection between biographical and fictional elements in the study of literature the influence of early Freudian theoretical themes upon the writer later influences including post modern and hermeneutic theories The life and work of Lawrence Durrell can serve as a prototype of a man s quest for meaning in a world caught in turmoil in the period between and during WW2 The author s psychoanalytic exploration of the work and its relevance to human experience today shows how the themes Durrell dealt with remain relevant Alfandary highlights the ways in which his usage of several author narrative styles exemplifies the divergent and often contradictory nature of Truth emerging rather as multi layered multi voiced and often torn sense of human subjectivity A Psychoanalytic Study of Lawrence Durrell s The Alexandria Quartet Exile and Return demonstrates Durrell s strong influence by psychoanalytic thought and will appeal to both psychoanalytic and literary scholars *The Variorum Edition of the Poetry of John Donne, Volume 7, Part 1*
John Donne,Gary A. Stringer,Paul A. greater than ever before Native populations were decimated by wave after wave of Old World diseases In turn colonists suffered disease and mortality rates much higher than in their home countries Not only disease but the idea of disease and the response to it deeply affected both colonizers and those colonized In *Romanticism and Colonial Disease* Alan Bewell focuses on the British response to colonial disease as medical and literary writers in a period roughly from the end of the eighteenth century to the middle of the nineteenth century grappled to understand this new world of disease Bewell finds this literature characterized by increasing anxiety about the global dimensions of disease and the epidemiological cost of empire Colonialism infiltrated the heart of Romantic literature affecting not only the Romantics framing of disease but also their understanding of England's position in the colonial world The first major study of the massive impact of colonial disease on British culture during the Romantic period *Romanticism and Colonial Disease* charts the emergence of the idea of the colonial world as a pathogenic space in need of a cure and examines the role of disease in the making and unmaking of national identities

Gay, 1992-09-01 This book is the only full length treatment of the relationship between aesthetic truths and psychoanalytic discoveries of art artists and a new concept of sublimation It provides a radical and unique study of the concept of sublimation and proposes a modest replacement for it In the first third of the book the author reviews critically the psychoanalytic sources of the concept of sublimation In the second third he shows how the concept developed from Freud's nineteenth century notions of perception In the last third he revises a concept of sublimation using a contemporary theory of perception In the final chapter he examines four works of literature short stories of John Cheever a Japanese novel portions of Hamlet and sublimation and perversion in Orson Welles *Citizen Kane*

Touched With Fire Kay Redfield Jamison, 1996-10-18 The definitive work on the profound and surprising links between manic depression and creativity from the bestselling psychologist of bipolar disorders who wrote *An Unquiet Mind* One of the foremost psychologists in America Kay Jamison is plainly among the few who have a profound understanding of the relationship that exists between art and madness William Styron The anguished and volatile intensity associated with the artistic temperament was once thought to be a symptom of genius or eccentricity peculiar to artists writers and musicians Her work based on her study as a clinical psychologist and researcher in mood disorders reveals that many artists subject to exalted highs and despairing lows were in fact engaged in a struggle with clinically identifiable manic depressive illness Jamison presents proof of the biological foundations of this disease and applies what is known about the illness to the lives

and works of some of the world's greatest artists including Lord Byron, Vincent Van Gogh and Virginia Woolf **The Variorum Edition of the Poetry of John Donne, Volume 2** John Donne, Gary A. Stringer, 2000 Based on an exhaustive study of the manuscript and print history of Donne's poetry, this edition presents newly edited critical texts of the poems and a comprehensive digest of the critical scholarly commentary on them from Donne's time forward. Textual introductions briefly locate the poems in the context of Donne's life or poetic development, outline the 17th century textual history of the poems and sketch the treatment of the text by modern editors. A detailed textual apparatus presents variants collated from many sources and traces the lines of textual transmission. Provided by publisher *Sweet Sorrow* Alan B. Eppel, 2018-05-08 This book defines the centrality of love and loss in human life and in human meaning. Bowlby's Attachment theory forms the basis for understanding our selves and our relationships. The author proposes that love is the subjective experience of attachment and that dyadic relationships are the source of ultimate meaning. He supports his theses with a tour de force integration of ideas from attachment theory, psychoanalysis, neuroscience and existential philosophy. He argues that the quality of attachment between mother and infant lays the foundation for the formation of individual identity and ultimately shapes our capacity to engage in relationships with others. The author describes loss as the reciprocal of attachment and considers the enormous influence of loss on our moods, sense of identity and our desire to live or die. The final segments of the book describe the implications of this analysis and link it to the meaning and purpose of human life. All of us seek to understand the meaning of life and especially the meaning of our own lives **Mystical Encounters with the Natural World** Paul Marshall, 2005-07-07 Some experiences of the natural world bring a sense of unity, knowledge, self-transcendence, eternity, light and love. This is the first detailed study of these intriguing phenomena. Paul Marshall explores the circumstances, characteristics and after-effects of this important but relatively neglected type of mystical experience and critiques explanations that range from the spiritual and metaphysical to the psychoanalytic, contextual and neuropsychological. The theorists discussed include R. M. Bucke, Edward Carpenter, W. R. Inge, Evelyn Underhill, Rudolf Otto, Sigmund Freud, Aldous Huxley, R. C. Zaehner, W. T. Stace, Steven Katz and Robert Forman, as well as contemporary neuroscientists. The book makes a significant contribution to current debates about the nature of mystical experience **Canadian Books in Print. Author and Title Index**, 1975 **The Poet-Physician** Donald C. Goellnicht, 2010-11-23 For six years of his brief life, like Keats, studied medicine first as an apprentice in Edmonton and then as a medical student at Guy's Hospital in London. His biographers have generally glossed over this period of his life and critics have ignored it and denied the influence of medical training on his poetry and thought. In this challenging reappraisal, Goellnicht argues that Keats's writings reveal a distinct influence of science and medicine. Goellnicht researches Keats's course work and texts to reconstruct the milieu of the early nineteenth-century medical student. He then explores the scientific resonances in Keats's individual works and convincingly shows the influence of his early medical training **Sylvia Plath** Suman Agarwal, 2003 This book celebrates Sylvia Plath's achievements as a

highly prolific writer who brought a path breaking revolution in the world of poetry thereby making each woman feel the pulse of life A confessionalist of both weight and colour Plath was not scared to openly pen down her feelings what she underwent and in no way was she different or less as compared to her contemporaries and the modernists This enigmatic personality plunged into depression and resorted to hair raising incident of rendering a note to her life by committing suicide at the age of 32 Disdaining political and social subjects Plath was a different breed from the beat nicks of her own time and all this goes to prove that she was stunningly original and a powerful poet Even 40 years after her death in 1963 her place in English literature is assured Twentieth century has been a devastating one especially when one is to peep into writers personal life which has been nerve wrecking and this book is an attempt to analyze Plath her life writings and also her relation to modern poets **Psychoanalysis, Psychology, and Literature, a Bibliography. 2nd Ed. 2 Vol Set** Norman Kiell,1982 Almost 20 000 entries of worldwide literature related to psychology and psychiatry as these disciplines are dealt with in literary publications Most of the contents of the first edition are included in the second Divided into sections of such forms as drama poetry folklore and myths Each numbered entry includes bibliographical information Author title and subject indexes *John Donne Journal* ,1989 *English Studies in Canada* ,1978 *Twayne's World Authors Series* ,1966
