A Sustainable Future for the Mediterranean Guillaume Benoit, Aline Comeau, 2012-08-21 Here s a work arriving just at the right moment and contributing new insights at precisely the time when public opinion remains sceptical of the not very promising future we are preparing for our children when governments balk at explaining to their electorates the vital but unpopular decisions that have to be taken and when civil society with few ways and means is finally becoming involved This remarkable work will help all actors to understand the inter linkages between economic activities and the environment in the Mediterranean Basin and take concerted effective action to build a positive sustainable future Mohamed Ennabli former Minister of the Environment and Land Use Planning Tunisia The Blue Plan has carried out a remarkable assessment of the serious environmental problems and insufficiently targeted cooperation in the Mediterranean and also of new financing systems to be implemented which would increase the capacities of local authorities and economic and social partners Georges Corm former Minister of Finance Lebanon The Mediterranean Basin and its surrounding countries is a microcosm of the environmental and sustainability

challenges facing people across the world Depending on the development path it takes in the future the region can either become a positive model for the regional regulation of globalization or more onerously it might reinforce global instability This unique volume is the definitive authoritative assessment of the environment and development of the Mediterranean Basin and its 22 countries and territories spanning five decades from 30 years in the past to 20 years into the future Produced by the Blue Plan within the framework of UNEP Mediterranean Action Plan and backed by the EU and national governments it brings together the work of more than 100 researchers from dozens of national regional and local governments and research groups into the only comprehensive insight into sustainable development issues in the region Core coverage includes water energy transport cities rural and coastal areas as well as related issues such as climate change population growth geopolitical changes unemployment and poverty pollution economic and environmental policies regional cooperation and the Euro Mediterranean Partnership Information is clearly presented through hundreds of full colour maps graphs tables and a wealth of case studies This is a must have reference for all levels of government NGOs and libraries as well as practitioners academics and businesses involved in economics natural resource management land and maritime transport water energy infrastructure urban and rural development agriculture fishing and aquaculture tourism and coastal management Countries and territories covered Spain France Italy Monaco Malta Cyprus Slovenia Croatia Bosnia Herzegovina Serbia and Montenegro Albania Greece Turkey Syria Lebanon Palestinian Territories Israel Egypt Libya Tunisia Algeria and Morocco Preface by Lucien Chabason Chairman of the Blue Plan

Sustainable Development Goals and Urban Health Abraham R. Matamanda, Verna Nel, 2024-09-28 The main aim of this book is to understand the interplay between the SDGs and urban health This is a critical issue in cities considering the complexity of health issues and how they transcend most SDGs However the SDGs are premised on a broad set of generalised indicators and targets Simultaneously local contexts differ thus a one size fits all understanding of urban health problems is not helpful Therefore the SDGs require Health in All Policies HiAP an approach to public policy across sectors that systematically takes into account the health implications of decisions seeks synergies and avoids harmful health impacts to improve population health and health equity Ramirez Rubio et al 2019 In applying the HiAP concept this book adopts a case study approach and considers the poor neighborhoods of a South African city specifically Bloemfontein part of the Mangaung Metropolitan Municipality Each chapter presented in the book considers a particular SDG and how that goal relates to urban health
