sight and site but also motion and emotion are irrevocably connected Explaining Pictures Ikumi Kaminishi, 2006-02-28
Early Japanese Buddhism was patronized by the literate classes and remained a prerogative of the elite until the end of the
twelfth century With the fiscal and political decline of its aristocratic patrons the Buddhist establishment turned increasingly
to lay commoners for financial support using paintings to accommodate its new and often subliterate audiences One type of
preaching known as etoki pictorial decipherment helped bridge the worlds of esoteric Buddhism and lay practice and reveals
much about the role of art in the context of didactic storytelling and proselytization Beginning with the provocative claim that
the popularization of Buddhism in the medieval period was a phenomenon of visual culture Explaining Pictures reexamines
the history and historiography of medieval Japanese Buddhism With theoretical sophistication and a full appreciation of the
power of imagery to convey and control religious meaning it investigates a range of aspects of etoki including the particularly
active role of itinerant nuns whose performances were especially edifying to female audiences as well as the visual
hagiography of the reputed founder of Japanese Buddhism the pictorial projections of Buddhist paradise and hell and the
explanation through visual imagery of sacred mountains Part One presents the social history of etoki as it appears in a broad
variety of written sources from the tenth to fifteenth centuries and investigates how etoki helped establish the cult of Shot ku
Taishi Part Two covers the period between the late twelfth and fourteenth centuries with a focus on Pure Land Buddhist
propaganda and its use in etoki practice Etoki sermons on the Taima Mandala the visual description of the Pure Land
Buddhist canons show how envisioning the land of bliss substitutes for meditative concentration to gain enlightenment Ikumi
Kaminishi next turns to the itinerant etoki proselytes and similar performing artists between the fifteenth and the sixteenth
centuries These individuals preached on the road and through their missionary work reached out to commoners turning etoki
into an effective method of imparting religious beliefs and soliciting alms In the late medieval period audiences regarded
itinerant preachers much like traveling artists and vendors which has led modern scholars to conclude that etoki priests
desecrated religious rituals Kaminishi reconsiders this historiographical problem in relation to the social meaning of itinerant
performing artists of the period Finally she examines etoki's effect on the popularization of sacred mountain worship in
particular Kumano and Tateyama during the seventeenth through nineteenth centuries Chapters focus on the Kumano
propaganda image used by nuns how Christian religious imagery was exploited in seventeenth century Buddhist propaganda
and the ways in which etoki campaigns made the remote Tateyama a popular pilgrimage site in early modern times

Grotenhuis,1998-11-01 The first broad study of Japanese mandalas to appear in a Western language this volume interprets mandalas as sanctified realms where identification between the human and the sacred occurs The author investigates eighth to seventeenth century paintings from three traditions Esoteric Buddhism Pure Land Buddhism and the kami worshipping Shinto tradition It is generally recognized that many of these mandalas are connected with texts and images from India and the Himalayas A pioneering theme of this study is that in addition to the South Asian connections certain paradigmatic Japanese mandalas reflect pre Buddhist Chinese concepts including geographical concepts In convincing and lucid prose ten Grotenhuis chronicles an intermingling of visual doctrinal ritual and literary elements in these mandalas that has come to be seen as characteristic of the Japanese religious tradition as a whole This beautifully illustrated work begins in the first millennium B C E in China with an introduction to the Book of Documents and ends in present day Japan at the sacred site of Kumano Ten Grotenhuis focuses on the Diamond and Womb World mandalas of Esoteric Buddhist tradition on the Taima mandala and other related mandalas from the Pure Land Buddhist tradition and on mandalas associated with the kami worshipping sites of Kasuga and Kumano She identifies specific sacred places in Japan with sacred places in India and with Buddhist cosmic diagrams Through these identifications the realm of the buddhas is identified with the realms of the kami and of human beings and Japanese geographical areas are identified with Buddhist sacred geography Explaining why certain fundamental Japanese mandalas look the way they do and how certain visual forms came to embody the sacred ten

Grotenhuis presents works that show a complex mixture of Indian Buddhist elements pre Buddhist Chinese elements Chinese Buddhist elements and indigenous Japanese elements **Graphic Japan** Natalie Avella,2004 From the kitsch cuteness of Hello Kitty to the cult of manga and anime Japanese design has long paved the way for the West to follow Graphic Japan goes beyond this well known territory to reveal the myriad styles of design produced in Japan today from packaging to posters and typography to new media Contemporary Japanese graphic design is a unique collision of traditional cultural influences and a focused thrust toward modernization on global terms and the book reflects this marriage of tradition and hypermodernity Essays on today s innovators are beautifully printed in a simple elegant manner that is typical of traditional Japanese work and are combined with bold and colorful visual material which reflects the brash global commerciality of much new material This book is an inspirational must for designers in the West **Great Adaptations: Screenwriting and Global**
