Nuevos Mundos Lectura Cultura Y Comunicacin Curso De Espaol Para Estudiantes Bilinges:

Developing Minority Language Resources Guadalupe Valdés, 2006-01-01 This book documents ongoing language shift to English among Latino professionals in California. It then describes current instructional practices used in the teaching of Spanish as an academic subject at the high school and university levels to heritage language students who although educated entirely in English acquired Spanish at home as a first language. It specifically examines the potential contribution of these instructional practices to the maintenance of Spanish.

Community Service-Learning for Spanish Heritage Learners Kelly Lowther Pereira, 2018-12-15 This book proposes community service learning as a critical pedagogy that connects learners and communities to address key challenges in heritage language education. The book's purpose is two-fold: to fill a crucial gap in empirical research on community service learning in the heritage language context as well as to provide language educators and practitioners essential guidelines for designing community service learning courses with particular attention paid to the characteristics and needs of Spanish heritage language learners. This book presents compelling evidence demonstrating the central role community service learning plays in developing heritage language learners' identities, connections to the heritage language community, language attitudes, and social, cultural, and sociolinguistic awareness. Importantly, this book also addresses the often overlooked perspectives of community partners and liaisons. As the first original research monograph on community service learning for Spanish heritage language learners, this pioneering book will undoubtedly aid students, instructors, and administrators across all levels of language education.
