to explore how nature occupies our imaginations and how our imaginations bring the natural world and our place in it into existence *Ascension* is a story of how we continually remake the world and are in turn remade by the new nature we've created. It is the story of humans yearning to understand their families themselves and the world they live in as it comes to a close, leaving them to anticipate what will follow. Rich in visual depictions of the natural world from nineteenth-century engraving and paintings to twentieth-century photography and twenty-first-century databases, *Ascension* uses the materials of three eras to drive home our inability to escape nature and the ways our fates are irrevocably bound together even as our actions usher in an end time.

**Mechanical Loading and Bone** Jonathan H. Tobias, 2016-01-20 This research topic is focused on recent advances in our understanding of effects of mechanical loading on the skeleton and research methods used in addressing these. Though it is well established that mechanical loading provides an essential stimulus for skeletal growth and maintenance, there have been major advances recently in terms of our understanding of the molecular pathways involved, which are thought to provide novel drug targets for treating osteoporosis. The articles included in this topic encompass the full spectrum of laboratory and clinical research and range from review articles, editorials, hypothesis papers, and original research articles. Together they demonstrate how mechanical loading underpins many aspects of bone biology, including the pathogenesis and treatment of osteoporosis and other clinical disorders associated with skeletal fragility.

**Winston County, Alabama: News from Western Winston 1901 - 1961** Robin Sterling, 2015-03-08 Western Winston County, Alabama, is dotted with small communities with names such as Deer Wood, Blooming Youth, Brown's Creek, Bold Springs, and Rocky Plains. These and other areas in northwest Alabama were settled by hardy individuals who worked hard to support themselves and raise their children. When the farm work was done, members of these isolated communities socialized with log rollings, barn raisings, and Sunday Schools. Growing out of the devotion to religion and each other, the region became known as one of the Sacred Harp and Gospel singing capitols of the South. This book of newspaper clippings from the Double Springs and Haleyville papers captures the day-to-day life of the people who inhabited the communities making up Western Winston County. In this volume, the researcher with ancestors in the area will learn more about the times and the issues important to the communities over a period of six decades during the 1900s.

**Pathless Forest** Chris Thorogood, 2024-03-07 The incredible story of one man's obsession to find and protect the world's largest flowers. As a child, Chris Thorogood dreamed of seeing *Rafflesia*, the plant with the world's largest flowers. He crafted life-size replicas in an abandoned cemetery, carefully bringing them to life with paper and paint. Today, he is a botanist at the University of Oxford's Botanic Garden and has dedicated his life to studying the biology of such extraordinary plants, working alongside botanists and foresters in Southeast Asia to document these huge, mysterious blooms. *Pathless Forest* is the story of

his journey to study and protect this remarkable plant a biological enigma still little understood which invades vines as a leafless parasite and steals its food from them We join him on a mind bending adventure as he faces a seemingly impenetrable barrier of weird wonderful and sometimes fearsome flora finds himself smacking off leeches hanging off vines wading through rivers and following indigenous tribes into remote untrodden rainforests in search of Rafflesia s ghostly foul smelling blooms more than a metre across We depend on plants for our very existence but two in five of the world s species are threatened with extinction nobody knows how many species of Rafflesia might already have disappeared through deforestation Pathless Forest is part thrilling adventure story and part an inspirational call to action to safeguard a fast disappearing wilderness To view plants in a different way as vital for our own future as for that of the planet we share And to see if Rafflesia itself can be saved
