Origin of Mattole George Miner,1996-10-01 **Mattole River Watershed Assessment Report** ,2003 **Books in Print** ,1991 **A History of California Literature** Blake Allmendinger,2015-05-19 This History explores the historical periods literary genres and cultural movements of California **California's Salmon and Steelhead** Alan Lufkin,2022-08-19 Millions upon millions of salmon and steelhead once filled California streams providing a plentiful and sustainable food resource for the original peoples of the region But over the years dams and irrigation diversions have reduced natural spawning habitat from an estimated 6 000 miles to fewer than 300 River pollution has also hit hard at fish populations which within recent decades have diminished by 80 percent One species the San Joaquin River spring chinook became extinct soon after World War II Other species are nearly extinct This volume documents the reasons for the decline it also offers practical suggestions about how the decline might be reversed The California salmon story is presented here in human perspective its broad historical economic cultural and political facets as well as the biological are all treated No comparable work has ever been published although some of the material has been available for half a century In the richly varied contributions in this volume the reader meets Indians whose history is tied to the history of the salmon and steelhead upon which they depend commercial trollers who see their livelihood and unique lifestyle vanishing biologists and fishery managers alarmed at the loss of river water habitable by fish and at the effects of hatcheries on native gene pools Women who fish conservation minded citizens foresters economists outdoor writers engineers politicians city youth restoring streambeds all are represented Their lives and the lives of all Californians are affected in myriad ways by the fate of California s salmon and steelhead This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1991 *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004 **Totem Salmon** Freeman House,2000-05-12 Part lyrical natural history part social and philosophical manifesto Totem Salmon tells the story of a determined band of locals who ve worked for over two decades to save one of the last purely native species of salmon in California The book call it the zen of salmon restoration traces the evolution of the Mattole River Valley community in northern California as it learns to undo the results of rapacious logging practices to invent ways to trap wild salmon for propagation and to forge alliances between people who sometimes agree on only one thing that there is nothing on earth like a Mattole king salmon House writes from streamside I think I can hear through the cascades of sound a systematic plop plop plop as if pieces of fruit are being dropped into the water Sometimes this is the sound of a fish searching for the opening upstream sometimes it is not I breathe quietly and wait Freeman House s writing about fish and fishing is erotic deeply observed and simply some of the best writing on the subject in recent literature House tells the story

of the annual fishing rituals of the indigenous peoples of the Klamath River in northern California one that relies on little known early ethnographic studies and on indigenous voices a remarkable story of self regulation that unites people and place And his riffs on the colorful early history of American hatcheries on property rights and on the happiness of the state show precisely why he is considered a West Coast visionary

Petitions to list a dozen West Coast salmon runs under the provisions of the Endangered Species Act make saving salmon an issue poised to consume the Pacific West Never before said Federal officials has so much land or so many people been given notice that they will have to alter their lives to restore a wild species
