Participation and Interaction in Foresight Kristian Borch, Sandra M. Dingli, Michael Sogaard Jørgensen, 2013-01-01. The ten national foresight case studies presented cover a wide-ranging set of themes: research, science, and technology; education and training; and the environment and countries. Help to underline the practical aspects of using dialogue and participation effectively in foresight exercises. The book is particularly useful in defining the concept of dialogue, debate, interaction, and participation, and in outlining a range of uses in different foresight contexts. This book constitutes an important contribution to the futures field and will prove an inspiration to those embarking on foresight exercises and similar open, participatory, forward-looking processes. Jennifer Cassingena Harper, Malta Council for Science and Technology. This illuminating book combines theory and practice to analyse the experiences and impacts of foresight activities in various European countries. It includes case studies with a focus on different societal issues, including national development, science and technology, and sustainable development. The contributors expertly describe and analyse foresight projects carried out in countries at various stages of economic development, including mature market economies, transition economies, and young democracies. The theoretical chapters on stakeholder participation, negotiation, and dialogue, learning, and visioning are useful in the planning and analyses of foresight activities. The case study chapters explicitly demonstrate how the societal context can influence the planning and impact of foresight policy. Scholars of foresight and technology assessment will find plenty of information in this invaluable book. It will also prove essential for Masters courses on foresight or future studies and public policy courses with a focus on future policy and planning.

Student Learning Abroad Michael Vande Berg, R. Michael Paige, Kris Hemming Lou, 2023-07-03. A central purpose of this book is to question the claims commonly made about the educational benefits of study abroad. Traditional

metrics of enrollment increases and student self report and practices of structural immersion are being questioned as educators voice growing uncertainty about what students are or are not in fact learning abroad This book looks into whether these criticisms are justified and what can be done if they are The contributors to this book offer a counter narrative to common views that learning takes place simply through students studying elsewhere or through their enrolling in programs that take steps structurally to immerse them in the experience abroad Student Learning Abroad reviews the dominant paradigms of study abroad marshals rigorous research findings with emphasis on recent studies that offer convincing evidence about what undergraduates are or are not learning brings to bear the latest knowledge about human learning and development that raises questions about the very foundations of current theory and practice and presents six examples of study abroad courses or programs whose interventions apply this knowledge This book provokes readers to reconsider long held assumptions beliefs and practices about teaching and learning in study abroad and to reexamine the design and delivery of their programs In doing so it provides a new foundation for responding to the question that may faculty and staff are now asking What do I need to know and what do I need to be able to do to help my students learn and develop more effectively abroad Contributors Laura BathurstMilton BennettGabriele Weber BosleyJohn EngleLilli Engle Tara HarveyMitchell HammerDavid KolbBruce La Brack Kris Hemming LouKate McClearyCatherine MenyhartR Michael PaigeAngela PassarelliAdriana Medina L pez PortilloMeghan QuinnJennifer Meta RobinsonRiikka SalonenVictor SavickiDouglas StuartMichael Vande BergJames ZullWhile the authors who have contributed to Student Learning Abroad are all known for their work in advancing the field of education abroad a number have recently been honored by leading international education associations Bruce La Brack received NAFSA s 2012 Teaching Learning and Scholarship Award for Innovative Research and Scholarship Michael Paige 2007 and Michael Vande Berg 2012 are recipients of the Forum on Education Abroad s Peter A Wollitzer Award

[Beyond Descriptive Translation Studies](#) Anthony Pym,Miriam Shlesinger,Daniel Simeoni,2008 To go beyond the work of a leading intellectual is rarely an unambiguous tribute However when Gideon Toury founded Descriptive Translation Studies as a research based discipline he laid down precisely that intellectual challenge not just to describe translation but to explain it through reference to wider relations That call

offers at once a common base an open and multidirectional ambition and many good reasons for unambiguous tribute The authors brought together in this volume include key players in Translation Studies who have responded to Toury s challenge in one way or another Their diverse contributions address issues such as the sociology of translators contemporary changes in intercultural relations the fundamental problem of defining translations the nature of explanation and case studies including pseudotranslation in Renaissance Italy Sherlock Holmes in Turkey and the coffee and sugar economy in Brazil All acknowledge Translation Studies as a research based space for conceptual coherence and creativity all seek to explain as well as describe In this sense we believe that Toury s call has been answered beyond expectations
