

ART PRINCIPLES

THE MEANS AN ARTIST USES TO ORGANIZE ELEMENTS WITHIN A WORK OF ART

Balance

Refers to how well the elements are applied in a visual composition as in "distribution of visual weight"
Major types are symmetrical and asymmetrical

Movement

Creates different effects that lead the viewer's gaze around the work of art making it more interesting & engaging

Rhythm

A principle of design that indicates movement, created by the careful placement of repeated elements in a work of art to cause a visual tempo or beat

Variety

A principle of design concerned with diversity or contrast. Variety is achieved by using different shapes, sizes, and/or colors in a work of art

Emphasis

Draws a viewer's attention to the main subject matter of focal point. Done by combining elements to stress the differences between those elements

Proportion

This depicts the size differences between parts of a subject and to the whole artwork

Unity

When components of composition are perceived as harmonious, giving the artwork a sense of completion

Pattern

This relates to sequences or arrangements of different motifs that can be for decoration or to create movement, or other effects

SCHOOL OF ATHENS BY RAPHAEL

The 4 arches right down the center of the artwork create symmetry or balance

There are a variety of shapes, sizes, color, lines (straight, curved, angled, thick, thin)

Harmonious as the elements are applied similarly throughout. The four arches, the gold colors, 3-dimensional shapes, texture on walls and people's clothing, active space all give this artwork a sense of unity

The size of the people in relation to the building is proportionate

Patterns are found throughout the art piece also creates rhythm as it's arranged in a way that leads the viewer's gaze along the artwork

The two main characters are placed in the center of the picture and have a different background as the others. The sky provides contrast, thus creating an emphasis
