

subject before the Royal Irish Academy, which, as is greatly to be regretted, have not yet been printed, or even appeared in the Academy's published transactions.

Besides the four issues of printing set out in the following list, there were probably other works which must have been lost. For example, the earliest Irish Biblesophers (of I may call them so), Sir James Ware, tells us that Sir Henry Sidney, when Lord Deputy in Dublin, caused the Statutes of Ireland to be printed, though where is not stated. Now Sidney was six or seven times in office altogether, either as Lord Justice or Lord Deputy, namely, in 1556, 1557, 1558 (twice), 1563-7, 1568-1571, and finally in 1575-1578. He died in 1586. Of course, the printing of the Statutes prepared by Sidney may have been done in London; but, as will be observed from the foregoing data, Powell's press was at work here, and turning out excellent work in its native country during the earlier periods of Sidney's administration. It is at least possible, therefore, that this edition of the Statutes was printed and published here. Whatever happened to, or became of, Powell it would seem that his press and type remained here, for the letters and borders around the Irish poems printed in 1571 are unquestionably Powell's. Sir Richard Buxton, afterwards Lord Chancellor, in the preface to his edition of the Irish Statutes, printed here in 1791, refers to the earlier PRINTED Statutes, which had become so rare that even the judges had not always copies for reference.

No doubt also there were various proclamations printed in this country, at least in Queen Elizabeth's reign, though as far I have only traced five of these at present. A patient and careful search through the original volumes of State Papers in the Public Record Office, London, from the reign of Edward VI to 1600, would be fruitful in results, I believe.

Enforcing Reformation in Ireland and Scotland, 1550-1700 Crawford Gribben,2016-04-29 The last few years have

witnessed a growing interest in the study of the Reformation period within the three kingdoms of Britain revolutionizing the way in which scholars think about the relationships between England Scotland and Ireland Nevertheless it is a fact that the story of the British Reformation is still dominated by studies of England an imbalance that this book will help to right By adopting an international perspective the essays in this volume look at the motives methods and impact of enforcing the Protestant Reformation in Ireland and Scotland The juxtaposition of these two countries illuminates the similarities and differences of their social and political situations while qualifying many of the conclusions of recent historical work in each country As well as Investigating what reformation meant in the early modern period and examining its literal rhetorical doctrinal moral and political implications the volume also explores what enforcing these various reformations could involve Taken as a whole this volume offers a fascinating insight into how the political authorities in Scotland and Ireland attempted with varying degrees of success to impose Protestantism on their countries By comparing the two situations and placing them in the wider international picture our understanding of European confessionalization is further enhanced **Cornell**

Bradshaw Irish Collection,1916 **Reading Ireland** Raymond Gillespie,2013-07-19 This fascinating and innovative study explores the lives of people living in early modern Ireland through the books and printed ephemera which they bought borrowed or stole from others While the importance of books and printing in influencing the outlook of early modern people is well known recent years have seen significant changes in our understanding of how writing and print shaped lives and was in turn shaped by those who appropriated the written word This book draws on this literature to shed light on the changes that took place in this unusual European society The author finds that there almost uniquely in Europe a set of revolutions took place which transformed the lives of the Irish in unexpected ways and that the rise of writing and the spread of print were central to an understanding of those changes which have previously only been understood to have been the result of conquest and colonisation This is a book which will be read not only by those interested in the Irish past but by all those who are concerned with the impact of communications media on social change **Historical Bibliography as an Essential Source for Historiography** Bernadette Cunningham,Václava Horčáková,Kristina Rexová,2015-10-05 This volume brings together papers presented at the Fifth International Conference of the European Historical Bibliographies Project held in Prague on November 7 8 2013 under the auspices of the Department of Historical Bibliography of the Institute of History of the Academy of Science of the Czech Republic The conference attracted bibliographers historians and librarians from Denmark France Ireland Lithuania Germany Switzerland and from a number of Czech institutions and libraries who gathered to discuss a wide range of topics The main theme of the conference was the significance of historical bibliography for historical science Given the diversity of professional focus among the conference participants this topic was approached and examined from a variety of viewpoints The most important outcomes of these meetings were firstly explaining the way individual participating organisations dealt with historical bibliography and secondly providing a comparison of different methodological and technological approaches for processing specialized bibliographies in various European countries This book introduces the wider public to the current shape and prospects of historical bibliography projects across a range of European countries Obviously such projects must reflect the needs of their users which mainly comprise historians and librarians The ongoing development of historical bibliography does not only involve a technical challenge but also a methodological one as well as a societal one when interpreted in a broader context Mutual communication helps form the future direction of historical bibliography which will undoubtedly face many new tasks and challenges Proceedings and Papers Bibliographical Society of America,1925 **The Papers of the Bibliographical Society of America** Bibliographical Society of America,1922 **Book Arts** Newberry Library,1919 **The New Cambridge Bibliography of**
