Hitler's Prisons Nikolaus Wachsmann, 2015-05-26 State prisons played an indispensable part in the terror of the Third Reich incarcerating many hundreds of thousands of men and women during the Nazi era This important book illuminates the previously unknown world of Nazi prisons their victims and the judicial and penal officials who built and operated this system of brutal legal terror Nikolaus Wachsmann describes the operation and function of legal terror in the Third Reich and brings Nazi prisons to life through the harrowing stories of individual inmates Drawing on a vast array of archival materials he traces the series of changes in prison policies and practice that led eventually to racial terror brutal violence slave labor starvation and mass killings Wachsmann demonstrates that ordinary legal officials were ready collaborators who helped to turn courts and prisons into key components in the Nazi web of terror And he concludes with a discussion of the whitewash of the Nazi legal system in postwar West Germany *The American Prison* Lynne Goodstein, Doris L. MacKenzie, 2013-03-08 Despite the dire forecasts of others who had themselves edited books we proceeded with the project of an edited volume on the American prison although with more than a little trepidation We had heard the horror stories of authors turning in their chapters months or years late or never at all of publishers delaying publication dates of volumes that read more like patchwork quilts than finely loomed cloth As if to prove the others wrong our experience in editing this volume has been marvelous and we think the volume reflects this Most likely the success of our experience and of the volume stems from two elements first the professionalism and commitment of the authors themselves and second the fact that early in the life of this volume most of the authors convened for a conference to critique and coordinate the chapters This book brings together an illustrious group of criminologists and correctional scholars who wrote chapters explicitly for this volume Co hesiveness was furthered by the charge we gave to each author to 1 present the major issues 2 review the empirical research and 3 discuss the implications of this work for present and future correctional policy The goal of this project was to examine the major correctional issues facing prison systems The chapters scrutinize the issues from the perspective of the system and the individual from theory to practical and daily management problems from legal to psychological concerns Prison Capital Lydia Pelot-Hobbs, 2023-11-28 Every year between 1998 to 2020 except one Louisiana had the highest per capita rate of incarceration in the nation and thus the world This is the first detailed account of Louisiana's unprecedented turn to mass incarceration from 1970 to 2020 Through extensive research Lydia Pelot Hobbs illuminates how policy makers enlarged Louisiana's carceral infrastructures with new prisons and jail expansions alongside the bulking up of police and prosecutorial power At the same time these infrastructures were the products of multiscalar crises the swings of global oil capitalism liberal federal court and policy interventions the rise of neoliberal governance and law and order austerity and racist and patriarchal moral panics surrounding crime However these crises have also created fertile space for anticarceral social movements From incarcerated people filing conditions of confinement lawsuits and Angola activists challenging life without
