Federal Probation ,1992 **Prison in Iran** Nahid Rahimipour Anaraki,2020-11-06 This book offers a unique look into prisons in Iran and the lives of the prisoners and their families It provides an overview of the history of Iranian prisons depicts the sub culture in contemporary Iranian prisons and highlights the forms that gender discrimination takes behind the prison walls The book draws on the voices of 90 men and women who have been imprisoned in Iran interviewed in 2012 and 2017 across various parts of the Islamic Republic of Iran It presents a different approach to the one proposed by Michel Foucault in *Discipline and Punish* because the author argues that Iran never experienced the age of sobriety in punishment and a slackening of the hold on the body Whilst penal severity in Iran has reduced its scope has now extended beyond prisoners to their families regardless of their age and gender In Iran penalties still target the body but now also affect the bodies of the entire prisoner s family It is not just prisoners who suffer from the lack of food clothes spaces for sleeping health services legal services safety and threats of physical violence and abuse but also their families The book highlights the costs of mothers incarceration for their children It argues that as long as punishment remains the dominant discourse of the penal system the minds and bodies of anyone related to incarcerated offenders will remain under tremendous strain This unique book explores the nature of these systems in a deeply under covered nation to expand understandings of prisons in the non Western world

Crouch, James W. Marquart, 2014-05-02 How does a prison achieve institutional order while safeguarding prisoners rights Since the early 1960s prison reform advocates have aggressively used the courts to extend rights and improve life for inmates while prison administrators have been slow to alter the status quo Litigated reform has been the most significant force in obtaining change *An Appeal to Justice* is a critical study of how the Texas Department of Corrections was transformed by *Ruiz v Estelle* the most sweeping class action suit in correctional law history Orders from federal judge William W Justice rapidly moved the Texas system from one of the most autonomous isolated and paternalistic system to a more constitutional bureaucracy In many respects the Texas experience is a microcosm of the transformation of American corrections over the second half of the twentieth century This is a careful account of TDC's fearful past as a plantation system its tumultuous litigated reform and its subsequent efforts to balance prisoner rights and prison order Of major importance is the detailed examination of the broad stages of the reform process and its costs and benefits and an intimate look at prison brutality and humanity The authors examine the terror tactics of the inmate guards the development of prisoner gangs and widespread violence during the reforms and the stability that eventually emerged They also detail the change of the guard force from a relatively small cohesive cadre dependent on discretion personal loyalty and physical dominance to a larger and more fragmented security staff controlled by formal procedures Drawing on years of research in archival sources and on hundreds of interviews with prisoners administrators and staff *An Appeal to Justice* is a unique basis

for assessing the course and consequences of prison litigation and will be valuable reading for legislators lawyers judges prison administrators and concerned citizens as well as prison and public policy scholars Prisoner Resettlement in Europe Frieder Dünkler, Ineke Pruin, Anette Storgaard, Jonas Weber, 2018-10-11 Questions regarding how to improve the transitional phase from prison to life in society after release have gained major importance in the last decade in criminal policy All over the world release preparation and resettlement practice are discussed with the aim to reduce negative effects of imprisonment and re offending rates Small and large reforms aiming at the improvement of release processes and reintegration strategies have taken place in many European states This book describes the current European landscape of prisoner resettlement and brings together the results and ideas of leading European academic experts with the ambition of furthering national European and international reform debates This book presents national reports about resettlement processes and structures in 20 European countries written by national scholars these reports reveal important actors in resettlement processes as well as political decisions about the role of the communities in taking the prisoners back or the use of early release as a strategy to motivate the released prisoner to enter into a future without crime Thematic chapters then concentrate on several aspects of prisoner resettlement that are of importance across borders ethical legal and practical challenges are discussed with a view on European developments and theoretical frameworks of prisoner resettlement are used to develop comprehensive perspectives for future reform debates The book serves as a fundamental source for researchers politicians and practitioners in the field of prison and probation reform and practice It is also useful in the field of social work in so far that the analyses confirm that prisoner resettlement is not just a problem of criminal but also of social justice Sustainable reforms need the will of and good cooperation between all responsible actors and organizations from the justice social health and welfare sectors as well as from society as a whole in the consent for taking released prisoners back

Crime, Punishment and the Prison in Modern China Frank Dikötter, 2002 This book is a richly textured social and cultural study exploring the profound effects and lasting repercussions of superimposing Western derived models of repentance and rehabilitation on traditional categories of crime and punishment *The Politics of Prison Crowding* Simone Santorso, 2023-02-14 The Politics of Prison Crowding investigates recent transformations in Italy's penal system to make the key analytical observation that conditions of overcrowding have become the new normal under which the modern prison system continues to operate and deliver punishment Engaging with the politics of crowding thus entails a direct and pertinent engagement with the modern state's politics of criminal justice and social control Worldwide over the last decades a growing number of jurisdictions have prison systems operating above or to the limit of their capacity yet little attention has been paid to these elements in the analysis of prison politics and day to day functions By exploring the crowding issue this book offers an original and interesting insight into the politics and dynamics characterising contemporary prison systems The hypothesis of this book is that the politics of prison crowding have become the template for the daily administration of the

prison system which incorporates not just policy and rules but day to day functions and practices regulating life behind bars Through interviews in modern Italian prisons the book brings to light a radical redefinition of a carceral system that harshens the delivery of punishment while justifying this exacerbation of pain by adding new bureaucratic logic to the administration of the penal system within a narrative of compliance to human rights standards By shedding new light on prison politics to open new critical perspectives and research paths *The Politics of Prison Crowding* offers a fundamental tool to scholars students and all professional policymakers and practitioners dealing with prison policies and the politics of justice

The Virtual Reality of Imprisonment in Russia Laura Piacentini,Elena Katz,2022-04-28 In outlining the online expressions of penal life this book disrupts the conventional human encounters that underpin empirical criminological scholarship on prisons because figuratively speaking prisons in Russia are de nesting from their institutional moorings and borders Using the online world of Runet as the research site and presenting research from selectively drawn evidence gathered from secondary data from prison related websites it explores the moving walls of the prison from socio political and cultural perspectives The book discusses how prisoners and their families articulate and give meaning to their experiences when they are online and while doing so develop their rights awareness This book is a pioneering methodological criminological and theoretical study the first of its kind in global criminology and humanities and because it is forging a new path for penal scholarship cannot be all encompassing but rather acts as a map for other researchers in different fields to use It will be useful for scholars working in comparative fields and jurisdictions on the subject of prisons rights and how the internet is being utilised by prisoners their families and communities organised around prison activism
