Prisoner Resettlement in Europe Frieder Dünkel,Ineke Pruin,Anette Storgaard,Jonas Weber,2018-10-11 Questions regarding how to improve the transitional phase from prison to life in society after release have gained major importance in the last decade in criminal policy All over the world release preparation and resettlement practice are discussed with the aim to reduce negative effects of imprisonment and re offending rates Small and large reforms aiming at the improvement of release processes and reintegration strategies have taken place in many European states This book describes the current European landscape of prisoner resettlement and brings together the results and ideas of leading European academic experts with the ambition of furthering national European and international reform debates This book presents national reports about resettlement processes and structures in 20 European countries written by national scholars these reports reveal important actors in resettlement processes as well as political decisions about the role of the communities in taking the prisoners back or the use of early release as a strategy to motivate the released prisoner to enter into a future without crime Thematic chapters then concentrate on several aspects of prisoner resettlement that are of importance across borders ethical legal and practical challenges are discussed with a view on European developments and theoretical frameworks of prisoner resettlement are used to develop comprehensive perspectives for future reform debates The book serves as a fundamental source for researchers politicians and practitioners in the field of prison and probation reform and practice It is also useful in the field of social work in so far that the analyses confirm that prisoner resettlement is not just a problem of criminal but also of social justice Sustainable reforms need the will of and good cooperation between all responsible actors and organizations from the justice social health and welfare sectors as well as from society as a whole in the consent for taking released prisoners back **The Puzzle of Prison Order** David Skarbek,2020-07-01 Many people think prisons are all the same rows of cells filled with violent men who officials rule with an iron fist Yet life behind bars varies in incredible ways In some facilities prison officials govern with care and attention to prisoners needs In others officials have remarkably

little influence on the everyday life of prisoners sometimes not even providing necessities like food and clean water Why does prison social order around the world look so remarkably different In *The Puzzle of Prison Order* David Skarbek develops a theory of why prisons and prison life vary so much He finds that how they re governed sometimes by the state and sometimes by the prisoners matters the most He investigates life in a wide array of prisons in Brazil Bolivia Norway a prisoner of war camp England and Wales women s prisons in California and a gay and transgender housing unit in the Los Angeles County Jail to understand the hierarchy of life on the inside Drawing on economics and a vast empirical literature on legal systems Skarbek offers a framework to not only understand why life on the inside varies in such fascinating and novel ways but also how social order evolves and takes root behind bars

Confinement, Punishment and Prisons in Africa Marie Morelle, Frédéric Le Marcis, Julia Hornberger, 2021-05-10 This interdisciplinary volume presents a nuanced critique of the prison experience in diverse detention facilities across Africa The book stresses the contingent porous nature of African prisons across both time and space It draws on original long term

ethnographic research undertaken in both Francophone and Anglophone settings which are grouped in four parts The first part examines how the prison has imprinted itself on wider political and social imaginaries and in turn how structures of imprisonment carry the imprint of political action of various times The second part stresses how particular forms of ordering emerge in African prisons It is held that while these often involve coercion and neglect they are better understood as the product of on going negotiations and the search for meaning and value on the part of a multitude of actors The third part is concerned with how prison life percolates beyond its physical perimeters into its urban and rural surroundings and vice versa It deals with the popular and contested nature of what prisons are about and what they do especially in regard to bringing about moral subjects The fourth and final part of the book examines how efforts of reforming and resisting the prison take shape at the intersection of globally circulating models of good governance and levels of self organisation by prisoners The book will be an essential reference for students academics and policy makers in Law Criminology Sociology and Politics
