Prisoner In Mexico:

Surviving Mexico's Dirty War Alberto Ulloa Bornemann, 2007 This is the first major book length memoir of a political prisoner from Mexico's dirty war of the 1970s. Written with the urgency of a first person narrative, it is a unique work providing an inside story of guerrilla activities and a gripping tale of imprisonment and torture at the hands of the Mexican government. Alberto Ulloa Bornemann was a young idealist when he dedicated himself to clandestine resistance and to assisting Lucio Caba as the guerrilla leader of the Party of the Poor. Here the author exposes readers to the day to day activities of revolutionary activists seeking to avoid discovery by government forces. After his capture, Ulloa Bornemann endured disappearance into a secret military jail and later abusive conditions in three civilian prisons. Although testimonios of former political prisoners from other Latin American nations have recently come into print, there are very few books about Mexico's political wars and none as vivid and disturbing as this.

Prisons in the Americas in the Twenty-First Century Marten W. Bienen, Jonathan D. Rosen, 2015-04-09 This volume on penitentiary systems in the Americas offers a long overdue look at the prisons that exist at the forefront of the ongoing struggle against drugs and violence throughout North Central and South America and the Caribbean. From Haiti to Bolivia, the authors examine the conditions in these systems and allow several common themes to emerge, including the alarming prevalence of lengthy pre-trial detention and the often abysmal living conditions in these institutions. Taken together, this comprises the first comparative overview of the use and abuse of prisons in the Americas.

Prisons and Prison Systems Mitchell P. Roth, 2005-11-30 Prisons have undoubtedly changed over the years as have penal practices in general, though more so in some countries than others. Prisons and prison systems have long been an overlooked part of criminal justice research, and as a result, limited material is available on many institutions. This comprehensive encyclopedia provides a historical overview of institutions and systems around the world, as well as penal theories, prisoner culture, and life, and notable prisoners and personnel. Readers will find a plethora of information, including material on such famous prisons as the Tower of London and Alcatraz, as well as on such topics as boot camps and parole. Other entries include Devil's Island, supermaximum prisons, Nelson Mandela, Pennsylvania system, and Amnesty International. Numerous appendixes list famous prisoners, prison museums, prison slang, and more.

The Globalization of Supermax Prisons Jeffrey Ian Ross, 2013-02-10 Supermax prisons, conceived by the United States in the early 1980s, are typically reserved for convicted political criminals such as terrorists and spies, and for other inmates who are considered to pose a serious ongoing threat to the wider community, to the security of correctional institutions, or to the safety of other inmates. Prisoners are usually restricted to their cells for up to twenty-three hours a day and typically have minimal contact with other inmates and correctional staff. Not only does the Federal Bureau of Prisons operate one of these facilities, but almost every state has either a supermax wing or stand-alone supermax prison. *The Globalization of Supermax Prisons* examines why nine advanced industrialized countries have adopted the supermax prototype, paying particular

attention to the economic social and political processes that have affected each state Featuring essays that look at the U S run prisons of Abu Ghraib and Guantanamo this collection seeks to determine if the American model is the basis for the establishment of these facilities and considers such issues as the support or opposition to the building of a supermax and why opposition efforts failed the allegation of human rights abuses within these prisons and the extent to which the decision to build a supermax was influenced by developments in the United States Additionally contributors address such domestic matters as the role of crime rates media sensationalism and terrorism in each country s decision to build a supermax prison
