THE PRISONER WITHIN

Prisoner Within

Peter Evans

Prisoner Within:

The Prisoner in Hell a true story Peter Evans,2019-11-28 This is the true story about events that took place during nine years of incarceration in the state of Texas However it is not as you would expect which makes it hard to fathom for some people and is thought provoking in content I show proof of an out of control consortium of prison officials and government leaders who have deceived society and conspired to break my spirit Vital evidence remains in Texas to this day

Nursing in Prison Joanne Brooke,2023-07-19 This Textbook addresses a gap in the market as currently there are no contemporary books exploring nursing within a prison setting The main focus is the provision of healthcare in the Prison Service of England and Wales although examples will also be drawn from the United States of America and Australia Healthcare within prison settings has changed remarkably to address the needs of the changing prison populations Thus this text is clearly structured to support student nurses to understand the role of the nurse within prison and how the different specialities of nursing are applied in this unique setting This textbook provides an overview of the context of prison prisoners and healthcare as well as the experiences of nurse specialists who work in this field including adult mental health and learning disability nurses across primary care mental health services substance misuse and end of life care This volume is informative for both undergraduate student nurses and for qualified nurses and dispels many myths regarding working as a nurse in a prison Each chapter is written by experts within the field including nurses who have worked or still working within the prison setting An important objective of this work is to inform student nurses of the possibility and opportunity of a nursing career within a prison setting

Prisoners in ... ,1991 *The Prisoner's Release* Keith Soothill,2023-10-25 For well over one hundred years society had considered ways of helping prisoners on their release from prison but there had been no serious attempt to assess in a scientific manner the value of such efforts Originally published in 1974 this book broke with this tradition and was the first full scale work published in this country evaluating carefully whether an active policy of finding suitable employment for men immediately on their release from prison had beneficial results The first part of the book discusses the historical development of prison after care from its early origins in the nineteenth century and indicates how up to the Second World War the primary object of after care had been regarded as the reinstatement of the ex prisoners in employment Gradually the specific task of finding jobs for ex prisoners had become a peripheral activity considered as the responsibility of the Department of Employment The effectiveness of the Department's pre release procedure for prisoners is discussed The rest of the book considers the fascinating Apex project set up to examine the effectiveness of finding work for ex prisoners The work of Apex continued to develop and expand but the present study considers the first five years when over four hundred men were randomly selected from two London prisons and offered the services of a specialist employment agency The outcome for these men is compared with a control group of over three hundred men randomly selected from the same prisons This study is concerned with the general run of the prison population and interestingly shows how some

prisoners accept and others reject the offer of an employment service It further indicates the enormous efforts sometimes needed to find suitable employment for prisoners on release The outcome of the job interviews arranged in terms of the proportions attending the interviews starting the jobs and the length of time men stayed in the jobs arranged is vital reading for anyone involved in after care An important part of the work is the examination of the subsequent reconviction rates for the various groups of offenders and the implication that it seems possible to predict men who are unlikely to be helped by the simple provision of employment on release The final chapter considers critically some of the assumptions upon which the Apex project was based and the possible use of computer techniques in the individualization of treatment is briefly discussed The author was particularly well qualified to discuss this subject for apart from his work over a number of years with several after care organizations the present project involved working in prisons for over three years as well as interviewing and talking to men after their release The findings of this study will interest the wide variety of people concerned with prison after care Criminologists sociologists probation officers and all others working in prisons and after care will recognize the important implications of the material presented in this book *The British Columbia Reports, Being Reports of Cases Determined in the Supreme and County Courts, and in Admiralty and on Appeal in the Full Court ...* British Columbia,1926
