Prisoners In America Perspectives On Our Correctional System:

Prisons Crowding: A Psychological Perspective Paul Paulus, 2012-12-06 This volume is a summary of a 15 year effort to determine the effects of prison crowding and their relationship to the broader realm of crowding phenomena and theories. Although the writing of this volume was for the most part a solitary effort, the data and ideas it is based on were mostly the result of a collaborative effort with Verne Cox and Garvin McCain. Their schedules limited their ability to contribute to this volume, but they provided much constructive feedback and assistance. Cox also wrote a preliminary draft of Chapter 3 and both McCain and Cox made major contributions to Chapter 5 and assisted with several other chapters. I am greatly indebted to these two fine scholars for their efforts and support over the course of our joint research endeavors. In recognition of this fact, the pronoun we is used throughout this volume. This research would not have been possible without the cooperation and support of thousands of inmates and hundreds of prison officials. The unconditional support throughout the project from Director Norman Carlson and former regional research director Jerome Mabli, both of the Federal Bureau of Prisons, is also greatly appreciated. Thanks are due to the National Institute of Justice for financial support during various phases of this project. The support of John Spevacek of the Institute was indispensable. Funds were also provided by the Hogg Foundation, U.S. Department of Justice Civil Rights Division and the University of Texas at Arlington. The Prison Industry Bianca Tylek, Worth Rises, 2025-05-06 A meticulous exposé of who profits from incarceration, culminating in a compelling case for abolition. Based on years of research by the criminal justice organization Worth Rises, best known for campaigns that have revolutionized prison telecom and made prison and jail communication free in cities and states around the country. The Prison Industry maps the range of ways in which private corporations, often with their government partners, make money off incarceration. It further details the gross extraction of wealth from incarcerated people and their families, who have been brutalized by overpolicing and mass surveillance. Chapters on labor, telecom, healthcare, community corrections, and more explore the origin story of privatization for each sector and how much money is in it for the corporations involved. Stretching far beyond private prisons to look at all the sectors that benefit from incarceration, the authors illuminate the methods used to extract resources from public coffers and communities, which corporations are most active, and how they partner with governments and the harms these profit-based approaches to justice cause people, families, and communities. Ultimately, The Prison Industry makes a compelling case for dismantling the prison industry and prison abolition more broadly. It serves as a tool for the tearing down of our wholly oppressive carceral system, the ashes of which we can use to create a better world built on care, not cages. General Accounting Office, 1993 **Document Retrieval Index**, 1974 American Prisons and Jails Joan Mullen, 1980 **Prisons and Crime in Latin America** Marcelo Bergman, Gustavo Fondevila, 2021-03-11 This groundbreaking work examines Latin America's prison crisis and the failure of mass incarceration.

policies As crime rates rose over the past few decades policy makers adopted incarceration as the primary response to public outcry Yet as the number of inmates increased crime rates only continued to grow Presenting new cross national data based on extensive surveys of inmates throughout the region this book explains the transformation of prisons from instruments of incapacitation deterrence and rehabilitation to drivers of violence and criminality Bergman and Fondevila highlight the impacts of internal drug markets and the dramatic increase in the number of imprisoned women Furthermore they show how prisons are not isolated from society they are sites of active criminal networks with many inmates maintaining fluid criminal connections with the outside world Rather than reducing crime prisons have become an integral part of the crime problem in Latin America

Doing Time in American Prisons Dennis Massey, 1989-11-03 This is a study of novels by Chester Himes Malcolm Braly and others on the experience of doing time in American prisons The authors are all convicts or ex convicts who were not professional writers before their incarceration In fact Massey notes the confinement seems to have motivated them to put their experiences into words Most of the prisoners were incarcerated for armed robbery one of the most common felonies in the United States The relationship

between that crime and the American Dream has social and political implications but these writers are neither prisoners of conscience nor prisoners of war How these writers describe the harsh prison environment reveals patterns and themes common to most prison novels Although an atmosphere of violence abounds a sense of camaraderie and an extended home feeling are equally strong characteristics of the prison novels The writers make it clear that within prisons inmates change for better or worse and sometimes this change results in positive growth
