Prisons In Crisis:

Prisons in Crisis William L. Selke, 1993 Prison officials are in the midst of the biggest prison crisis This book looks at prison life and conditions It reviews ideas and policies both at home and from abroad that can be used to alleviate the crisis if we are able to muster the political courage and public support to put them into effect **America's Correctional Crisis** Stephen D. Gottfredson, Sean Mcconville, 1987-06-23 These essays treat the legal financial ethical political institutional and social dimensions of the most important element of America's correctional crisis prison overcrowding The collection may become a standard work in the field especially for those who question the feasibility and wisdom of building more prisons The need for rational policy making that links prison sentences with available prison space comes through clearly and forcefully Chapters by well known authorities describe the extent of overcrowding in prisons and jails review current law regarding the constitutionality of overcrowded prison facilities and summarize research on causes and consequences Highly recommended Choice Because of the recent explosion in the American prison population which has risen more than 40 percent in just six years overcrowding has reached crisis proportions and conditions within prisons continue to deteriorate This book takes a close look at the policy implications of that crisis addressing constitutional issues economic and political questions and a wide range of possible long and short term solutions Written by some of the most experienced academics and consultants now working the field it provides a theoretical orientation and up to date factual background for each of the issues and practical policy alternatives that are studied **Lawful Order** Leo Carroll, 1999-09 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company *Criminal Injustice* Elihu Rosenblatt, 1996 At a time when activists elected officials and concerned individuals should be countering these trends with demands for jobs education and serious alternatives to imprisonment there is relative silence Criminal Injustice which explores the connections between imprisonment racism class domination misogyny and homophobia offers us invaluable information and compelling arguments for placing prison issues on the agenda of every progressive organization Angela Y Davis This remarkable anthology exposes and uncovers the economic and political realities behind the imprisonment of astounding numbers of the working class working poor and people of color *Prison Crisis* Peter Evans, 2023-10-25 So far we have successfully avoided loss of life during serious disturbances but if the present trend continues there will be a serious loss of control In such circumstances there is a probability of both staff and prisoners being killed This dramatic warning given by the prison governors to the Labour Home Secretary Mr Merlyn Rees stimulated the setting up of the May Committee in 1978 That Committee then reported and revealed how dangerously explosive the prison system had become The time was exactly right therefore for a book like Prison Crisis originally published in 1980 to draw together all of the issues to provide an agenda for public and politicians to use this best chance in one hundred years for a major reform of the prison system One issue above all symbolises those which affect the prison system and the prison service and of course the prisoners themselves for it exposes

why the system is dangerously close to breakdown The extent of prison overcrowding is a national disgrace In 1978 for the first time as many as 16 000 inmates in some of the most primitive of Britain's prisons were forced to live two or three to a cell which the Victorians had built to hold one They have not even washbasins in their cells let alone lavatories Sometime prisoners are locked in together for twenty three hours out of twenty four sleeping smoking eating urinating and defecating without privacy in sickening sight smell and sound of each other The author who had been Home Affairs Correspondent of The Times for ten years raises as Sir Robert Marks puts it in his Foreword all sorts of issues which could and should be of great interest to a caring public and which now demand decision and action how best to hold the top security prisoners including terrorists how prisons are often forced with psychiatric cases to do the job of hospitals the academies of crime detention centres and borstals the rise in female and particularly juvenile crime violence in prisons and riot control the prisoners rights movement discontent among prison officers not just over pay but over the status of their job and the importance of their role in re educating prisoners the governors position of responsibility without power the low political priority given by Government Finally in a chapter aptly called Rescuing the Prisons Peter Evans conducts a wide ranging well informed and radical debate on what at different levels needed to be done to make a system rooted in the nineteenth century fit for the twenty first century and still retain the sense that prisons are above all a moral issue

Lockdown America Christian Parenti, 1999 Consider the following Over 1.7 million Americans live in prison a three hundred percent increase since 1980 In some US cities one third of all young Black men are in jail on probation or awaiting trial In California spending on prisons has eclipsed allocations for higher education Starbucks Jansport and Microsoft all use prison labor to package their products Corrections Corporations of America the nation's largest private jailer has been dubbed a theme stock for the 90s Why is criminal justice so central to American politics Lockdown America not only documents the horrors and absurdities of militarized policing prisons a fortified border and the federalization of the war on crime it also explains the political and economic history behind the massive crackdown Written in accessible and vivid prose Lockdown America will propel readers toward a deeper understanding of the links between crime and politics in a period of gathering economic crisis

support as they are manifested in difficulties with the environment with perception of the self and others and with impulse management Part Two takes up the questions of how typical are inmates who injure themselves and in what ways they differ from their peers and major differences in risk and in themes of coping are shown to be related to age sex ethnic background previous experiences with drugs and with personal violence and incarceration in jails before sentence and in prisons Part Three presents detailed psychological autopsies of men who ended their lives in prison cells providing a convincing and heart rending view of the process of human breakdown as it unfolds over time The book will be important not only to criminologists and penologists but also and because of its profound general implications to all those sociologists psychiatrists psychologists social workers and administrators of institutions who wish to understand and effectively to deal with the tragic problems of human breakdown Hans Toch is professor of psychology in the School of Criminal Justice at the University of Albany He is an elected fellow of the American Psychological Association as well as the American Society of Criminology He has been president of the American Association of Forensic Psychology He was also the Project Co Director of the Institute for the Study of Crime and Delinquency at Sacramento California

Punishment and Prisons Joe Sim, 2009-06-10 Punishment and Prisons is a scholarly powerful and inspirational critique With passion and humanity Joe Sim strips neo liberal penal policies of their reformist pretensions and demonstrates that prisons will continue to be brutal enforcers of gross economic inequalities until such time as the abolitionist alternative is realised Pat Carlen Joe Sim has long occupied a key position in British and European criminology This book is a genuinely important addition to the literature it is controversial and will stimulate debate Punishment and Prisons shows that critical criminology is alive that it has a voice and that it needs to be read Peter Young Professor of Criminology University of Hull A satisfyingly uncompromising critique that has no fear of coming to clear conclusions and provides little succour to those satisfied with short term change in the current system Sim provides the kind of concise articulate and powerful critique of apparent criminological realities which is necessary to motivate genuine reform and can help to ensure that practitioners and others do not forget the big picture Probation Journal Joe Sim offers a rich and persuasive analysis of imprisonment providing a wealth of political and policy detail He makes his reader confront the cruelties of imprisonment as well as its ineffectiveness in reducing crime and it would surely be impossible to read this book without feeling profound disquiet about the deployment of the power to punish in contemporary Britain Punishment and Prisons has a breadth and depth of scholarship arguing powerfully for a more critical criminology and an abolitionist stance towards imprisonment I urge all those interested in penal policy whether as students teachers researchers reformers politicians or penal professionals to read this important and disturbing book Professor Barbara Hudson Centre for Criminology and Criminal Justice Studies University of Central Lancashire With prisons overflowing and penal policy the topic of hot debate Punishment and Prisons Power and the Carceral State presents a lively and accessible discussion of possible solutions to the current crisis by one of the foremost scholars in the field Joe Sim traces the development of penal strategy over the past three decades through a critical analysis of the relationship between penal policy and state power Exploring the contested histories of punishment that are prominent in criminology and its development in penal policy the book analyses four key dimensions of modern penal trends continuity and discontinuity in penal policy and practice reform and rehabilitation contesting penal power abolitionism Articulate innovative and theoretically informed Punishment and Prisons Power and the Carceral State offers a critical overview of contemporary penal politics that will prove a compelling addition to the criminological library The book is written for not only for students and academics but also for those involved in the debates on penal policy including prison reform groups

The Expanding Prison David Cayley, 1998 The prison population in the United States has quadrupled since 1970 while Canada's federal prisons are 30 percent over capacity because the current trend in Western society is to arrest more criminals sentence them to longer terms and build more prisons to house them In *The Expanding Prison* David Cayley argues that such a strategy essentially undercuts democracy with totalitarianism He offers proven alternatives to imprisonment that emphasize settlement oriented techniques over punishment and move us toward a vision of justice as peacemaking rather than vengeance The result is a learned and impassioned call for change in a system and a society that have become dangerously politicized

Local Prisons Richard F. Sparks, 1971

The English Prison Health System After a Decade of Austerity, 2010-2020 Nasrul Ismail, 2022-11-21 Austerity has reconfigured and scaled back the governance and delivery of public services and negatively affected society's most vulnerable groups This book opens up the closed world of English prisons to examine its impact on prison health governance and healthcare delivery It argues that austerity has been a decade long large scale political experiment that has caused debt to balloon eroded the prison health system and perpetuated a cycle of punishment resulting in sicker prisoners In short austerity has violated prisoners human rights Drawing on interviews and data from existing longitudinal and economic analyses the book demonstrates how austerity has resulted in high rates of recidivism diminished what remains of the welfare state and increased inequality and punitiveness Despite a decade of failure there is a marked political reluctance to dispense with austerity and the governmental juggernaut continues to produce the same result As the spectre of recession increases caused in part by Brexit and COVID 19 these failures are ever more perilous This book blends the interdisciplinary

perspectives of criminology public health sociology law social policy politics and economics to enable greater understanding of the impact of austerity on health governance prison healthcare the prison workforce and prisoners health and safety It challenges current policy practice and thinking and is a must read for anyone who wants to reflect on how the political economic structure can affect the governance and delivery of healthcare services in marginalised settings beyond prisons and indeed beyond England

Drugs, Prisons and Policy-Making K. Duke, 2003-10-14 In this fascinating new work Karen Duke explores the conflicts and contradictory pressures in the development of prison drugs policy in Britain from 1980 to the present Based on interviews with key policy actors and documentary analysis it explores how policy networks around drug issues in prisons have attempted to contain the contradictions between treatment and punishment and how their activities have been shaped by the ways in which the drugs issue is framed the roles of research evidence and knowledge and the impact of wider social political policy and institutional contexts

Therapeutic Community for Women Prisoners Elaine Player, Elaine Genders, 2025-09-02 Based upon an extensive empirical study of a democratic therapeutic community for women serving long and medium sentences this book explores the opportunities it provided for restorative rehabilitation In so doing it identifies some of the interconnected ways in which these ambitions are undermined by pervasive yet often tacit assumptions that underly penal policies and practices Drawing on a wealth of data gathered from a study spanning a period of eighteen years at the only democratic therapeutic community for women prisoners in the UK the book highlights how feminist criminology has revealed an invidious history of women's treatment in prison demonstrating how reformist and rehabilitative interventions have reproduced and exacerbated existing states of inequality and oppression Consequently the question explored in this book is whether a proportionate sentence that imposes a loss of liberty is inevitably destined to this fate or whether it can be constructed in ways that are progressive and transformative By identifying and understanding some of the interconnected ways in which progressive efforts have typically been undermined it opens a debate about the insinuation of certain often unspoken assumptions that underly penal policies and practices and the need for their deconstruction It opens an axiomatic debate about how women imprisoned for serious offences might have that loss of liberty interpreted to facilitate a restorative reparative and reintegrative process of rehabilitation informed by principles of social justice This book will be of great interest to students and scholars of criminology feminist studies public policy and human rights It will also be of value to policymakers and practitioners in women's prisons and psychologists and psychiatrists interested in therapeutic communities
