attention is paid to whether reductionist strategies that emerged during the pandemic can be used to counteract mass incarceration and prison overcrowding in the future Although the book reflects the situation until mid 2021 after the second and during the third wave of the pandemic it is highly relevant to the current situation as the living conditions in prisons did not change significantly during the following waves which showed high infection rates in particular in the general population but increased vaccination rates too In prisons problems the pandemic raises have an even greater impact than for the general society Revealing many notable and interesting changes in prison life and in release programmes this book is essential reading for students and scholars of penology criminology law sociology and public health It will also appeal to criminal justice practitioners and policy makers

**Starve and Immolate** Banu Bargu, 2014-09-23 *Starve and Immolate* tells the story of leftist political prisoners in Turkey who waged a deadly struggle against the introduction of high security prisons by forging their lives into weapons Weaving together contemporary and critical political theory with political ethnography Banu Bargu analyzes the death fast struggle as an exemplary though not exceptional instance of self destructive practices that are a consequence of retort to and refusal of the increasingly biopolitical forms of sovereign power deployed around the globe Bargu chronicles the experiences rituals values beliefs ideological self representations and contentions of the protestors who fought cellular confinement against the background of the history of Turkish democracy and the treatment of dissent in a country where prisons have become sites of political confrontation A critical response to Michel Foucault's *Discipline and Punish* *Starve and Immolate* centers on new forms of struggle that arise from the asymmetric antagonism between the state and its contestants in the contemporary prison Bargu ultimately positions the weaponization of life as a bleak violent and ambivalent form of insurgent politics that seeks to wrench the power of life and death away from the modern state on corporeal grounds and in increasingly theologized forms Drawing attention to the existential commitment sacrificial morality and militant martyrdom that transforms these struggles into a complex amalgam of resistance Bargu explores the global ramifications of human weapons practices of resistance their possibilities and limitations

**Prison Violence** Kate Gooch, 2025-07-02 This book analyses the nature causes logic and culture of prison victimisation in an English young offender institution for young men aged 18-21 years old Drawing on ethnographic and qualitative research this book offers a comprehensive analysis of the gendered situational individual and moral components of prison victimisation It explores how wider technological economic policy political and cultural changes have altered the texture and structure of prison life and prison violence and with what consequences Ultimately the book argues that high levels of prison violence are not inevitable Rather the prevention of prison violence requires a just lawful humane and hopeful environment and failing to create such is tragically life changing for young prisoners

*The Violence of Incarceration* Phil Scraton, Jude McCulloch, 2023-04-21 Conceived in the immediate aftermath of the humiliations and killings of prisoners in Afghanistan and Iraq of the suicides and hunger strikes at Guantanamo Bay and of the disappearances of detainees through

extraordinary rendition this book explores the connections between these shameful events and the inhumanity and degradation of domestic prisons within the allied states including the USA Canada Australia the UK and Ireland The central theme is that the revelations of extreme brutality perpetrated by allied soldiers represent the inevitable end product of domestic incarceration predicated on the use of extreme violence including lethal force Exposing as fiction the claim to the political moral high ground made by western liberal democracies is critical because such claims animate and legitimate global actions such as the war on terror and the indefinite detention of tens of thousands of people by the United States which accompanies it The myth of moral virtue works to hide silence minimize and deny the brutal continuing history of violence and incarceration both within western countries and undertaken on behalf of western states beyond their national borders
