Greene, 2000-11-09 Jack Greene explores the changing definitions of America from the time of Europe s first contact with the New World through the establishment of the American republic Challenging historians who have argued that colonial American societies differed little from those of early modern Europe he shows that virtually all contemporary observers emphasized the distinctiveness of the new worlds being created in America Rarely considering the high costs paid by Amerindians and Africans in the construction of those worlds they cited the British North American colonies as evidence that America was for free people a place of exceptional opportunities for individual betterment and was therefore fundamentally different from the Old World Greene suggests that this concept of American societies as exceptional was a central component in their emerging identity The success of the American Revolution helped subordinate Americans long standing sense of cultural inferiority to a more positive sense of collective self that sharpened and intensified the concept of

American exceptionalism Merger Mania Andrew Sancton,2000-06-16 Outside the United States forced municipal mergers were a popular policy in many European countries and Canadian provinces during the 1960s and 1970s The city of Laval just north of Montreal and the unicity of Winnipeg owe their origins to this period both amalgamations failed to meet their original objectives Despite the emergence of public choice theory which justifies municipal fragmentation on market principles some politicians and public servants in the 1990s have continued to advocate municipal amalgamations as a means of reducing public expenditure particularly in Ontario In Merger Mania Andrew Sancton demonstrates that this approach has generally not saved money He examines the history of amalgamation as well as studying recent forced municipal mergers in Halifax Toronto Ottawa Hamilton and Sudbury In the concluding chapter he examines the case for municipal amalgamation on the Island of Montreal and argues that those who would abolish locally elected municipal councils are obligated to explain very carefully especially in light of evidence to the contrary exactly why they think such drastic measures are necessary A compelling examination of a timely issue Merger Mania is a must read for anyone interested in the politics of city governments **Our Town** David L.
