Lost in the Shadow of the Word Benjamin Paloff,2016-12-15 2018 AATSEEL Prize for Best Book in Literary Scholarship Scholars of modernism have long addressed how literature painting and music reflected the radical reconceptualization of

space and time in the early twentieth century a veritable revolution in both physics and philosophy that has been characterized as precipitating an epistemic trauma around the world In this wide ranging study Benjamin Paloff contends that writers in Central and Eastern Europe felt this impact quite distinctly from their counterparts in Western Europe For the latter the destabilization of traditional notions of space and time inspired works that saw in it a new kind of freedom However for many Central and Eastern European authors who were writing from within public discourses about how to construct new social realities the need for escape met the realization that there was both nowhere to escape to and no stable delineation of what to escape from In reading the prose and poetry of Czech Polish and Russian writers Paloff imbues the term Kafkaesque with a complexity so far missing from our understanding of this moment in literary history *Azure Cookbook* Reza Salehi,2023-06-22 How do you deal with the problems you face when using Azure This practical guide provides over 75 recipes to help you to work with common Azure issues in everyday scenarios That includes key tasks like setting up permissions for a storage account working with Cosmos DB APIs managing Azure role based access control governing your Azure subscriptions using Azure Policy and much more Author Reza Salehi has assembled real world recipes that enable you to grasp key Azure services and concepts quickly Each recipe includes CLI scripts that you can execute in your own Azure account Recipes also explain the approach and provide meaningful context The solutions in this cookbook will take you beyond theory and help you understand Azure services in practice You ll find recipes that let you Store data in an Azure storage account or in a data lake Work with relational and nonrelational databases in Azure Manage role based access control RBAC for Azure resources Safeguard secrets in Azure Key Vault Govern your Azure subscription using Azure Policy Use CLI code to construct your application or fix a particular problem [Plant Metabolites: Methods, Applications and Prospects](#) Swapna Thacheril Sukumaran,Shiburaj Sugathan,Sabu Abdulhameed,2020-11-28 Food security and the medicinal needs of billions of people around the world are pressing global issues and the biodiversity and sustainable utilization of plants is of great significance in this context Further ethnobotanical studies are vital in the discovery of new drugs from indigenous medicinal plants and plants with industrially important metabolites need to be cultivated to meet the growing market demand In addition the production of plant metabolites under in vitro conditions also has tremendous possibilities The totipotency of plant cells plays a valuable role in the sustainable utilization of plant resources through cell tissue and organ culture At the same time production can be enhanced using productive cell lines treatment with elicitors changing nutritional parameters and metabolic engineering This book provides state of the art information on biodiversity conservation ethnobotany various aspects of In vitro secondary metabolite production bioprospecting from various plant groups and drug discovery It also discusses methods of extracting and characterizing drug leads from plant sources **Chaucerian Spaces** William F. Woods,2008-06-30 Chaucerian Spaces explores the affect and the significance of space and place in the first six tales in Chaucer s Canterbury Tales Relatively little has been written about space in the Canterbury Tales yet the rewards for

attending to this aspect of Chaucer's aesthetic are considerable. Space indicates the potential for characteristic action development and a more profound expression of being. In these tales characters inhabit a landscape and places within it that express their inner life. Emelye in her garden, Palamon and Arcite in the grove, all occupy spaces or places that manifest social destiny and individual intention. Space and subjectivity change as territories give way to households and the horizons of consciousness shrink to the core of human intent. Most striking is the transformation of women in place. Emelye, Alyson, even Custance and the Wife of Bath dwell in places that express their social and economic potential. They are in place but place is also in them; they merge in metaphor with the places that express them, bringing the reader closer to the sensible, reflective experience of the medieval subject.

Beyond the Multiplex Barbara Klinger, 2023-09-01. Since the mid-eighties more audiences have been watching Hollywood movies at home than at movie theaters, yet little is known about just how viewers experience film outside of the multiplex. This is the first full-length study of how contemporary entertainment technologies and media from cable television and VHS to DVD and the Internet shape our encounters with the movies and affect the aesthetic, cultural, and ideological definitions of cinema. Barbara Klinger explores topics such as home theater, film collecting, classic Hollywood movie reruns, repeat viewings, and Internet film parodies, providing a multifaceted view of the presentation and reception of films in U.S. households. Balancing industry history with theoretical and cultural analysis, she finds that today cinema's powerful social presence cannot be fully grasped without considering its prolific recycling in post-theatrical venues, especially the home. Since the mid-eighties more audiences have been watching Hollywood movies at home than at movie theaters, yet little is known about just how viewers experience film outside of the multiplex. This is the first full-length study of how contemporary entertainment
