*The Private Eye* Bran Nicol, 2013-07-15 From Philip Marlowe and Sam Spade to Jake Gittes private eyes have made for some of the most memorable characters in cinema We often view these detectives as lone wolves who confront and try to make sense of a violent and chaotic modern world Bran Nicol challenges this stereotype in *The Private Eye* and offers a fresh take on this iconic character and the film noir genre Nicol traces the history of private eye movies from the influential film noirs of the 1940s to 1970s neonoir cinema whose slow and brilliant decline gave way to the fading of detectives into movie mythology today Analyzing a number of classic films including *The Maltese Falcon* *The Big Sleep* *Chinatown* and *The Long Goodbye* he reveals that while these movies are ostensibly thrillers they are actually occupied by issues of work and love The private eye is not a romantic hero Nicol argues but a figure who investigates the concealments of others at the expense of his own private life Combining a lucid introduction to an underexplored tradition in movie history with a new approach to the detective in film this book casts new light on the private worlds of the private eye

**Arresting Cinema** Karen Fang, 2017-01-11 When Ridley Scott envisioned Blade Runner's set as Hong Kong on a bad day he nodded to the city's overcrowding as well as its widespread use of surveillance But while Scott brought Hong Kong and surveillance into the global film repertoire the city's own cinema has remained outside of the global surveillance discussion In Arresting Cinema Karen Fang delivers a unifying account of Hong Kong cinema that draws upon its renowned crime films and other unique genres to demonstrate Hong Kong's view of surveillance She argues that Hong Kong's films display a tolerance of and even opportunism towards the soft cage of constant observation unlike the fearful view prevalent in the West However many surveillance cinema studies focus solely on European and Hollywood films discounting other artistic traditions and industrial circumstances Hong Kong's films show a more crowded increasingly economically stratified and postnational world that nevertheless offers an aura of hopeful futurity Only by exploring Hong Kong surveillance film can we begin to shape a truly global understanding of Hitchcock's rear window ethics
