 traces the history of food and famine in Ireland from the sixteenth to the early twentieth century It looks at what people ate
 and drank and how this changed over time The authors explore the economic and social forces which lay behind these
 changes as well as the more personal motives of taste preference and acceptability They analyze the reasons why the potato
 became a major component of the diet for so many people during the eighteenth century as well as the diets of the middling
 and upper classes This is not however simply a social history of food but it is a nutritional one as well and the authors go on
 to explore the connection between eating health and disease They look at the relationship between the supply of food and the
 growth of the population and then finally and unavoidably in any history of the Irish and food the issue of famine examining
