Racialization Karim Murji, John Solomos, 2005

Racialization has become one of the central concepts in the study of race and racism It is widely used in both theoretical and empirical studies of racial situations There has been a proliferation of texts that use this notion in quite diverse ways It is used broadly to refer to ways of thinking about race as well as to institutional processes that give expression to forms of ethno racial categorization An important issue in the work of writers such as Robert Miles for example concerns the ways in which the construction of race is shaped historically and how the usage of that idea forms a basis for exclusionary practices The concept therefore refers both to cultural or political processes or situations where race is invoked as an explanation as well as to specific ideological practices in which race is deployed It is evident however that despite the increasing popularity of the concept of racialization there has been relatively little critical analysis exploring its theoretical and empirical usages It is with this underlying concern in mind that Racialization Studies in Theory and Practice brings together leading international scholars in the field of race and ethnicity in order to explore both the utility of the concept and its limitations

A Theory of Race Joshua Glasgow, 2010-08-18 Social commentators have long asked whether racial categories should be conserved or eliminated from our practices discourse institutions and perhaps even private thoughts In A Theory of Race Joshua Glasgow argues that this set of choices unnecessarily presents us with too few options Using both traditional philosophical tools and recent psychological research to investigate folk understandings of race Glasgow argues that as ordinarily conceived race is an illusion However our pressing need to speak to and make sense

of social life requires that we employ something like racial discourse These competing pressures Glasgow maintains ultimately require us to stop conceptualizing race as something biological and instead understand it as an entirely social phenomenon
