Racism Divided By Color:

Racism Gerald Newman, Eleanor Newman Layfield, 1995 A look at the history of and societal factors involved in racism as well as how to deal with prejudice against people based on skin color and its manifestations **Divided by Color** Donald R. Kinder, Lynn M. Sanders, 1996-07-15 Divided by Color supplies the reasons for this division showing that racial resentment continues to exist Despite a parade of recent books optimistically touting the demise of racial hostility in the United States the authors marshal a wealth of the most current and comprehensive evidence available to prove their case *Beyond Racial Division* George A. Yancey, 2022-03-15 We have struggled to effectively address racial tension in the United States While colorblindness ignores our history of injustice antiracism efforts have often alienated people who need to be involved In his model of collaborative conversation and mutual accountability sociologist George Yancey offers an alternative to racial alienation where all seek the common good for all to thrive *The Dynamics of Racial Progress* Antoine L. Joseph, 2016-07-22 Race relations in the United States have long been volatile marked on the one hand by distrust and violence but tempered on the other by periods of conciliation integration and relative harmony This path breaking blend of history sociology political science and economics argues that the key factor determining the quality of race relations is economic When economic equality spreads so do social and political equality Conversely economic downturns and widening income disparities promote political inequality polarizing blacks and whites To support this provocative thesis the author examines key events and eras in American history since the Reconstruction particularly the black migration and the New Deal policies of the interwar years the civil rights movement of the 1950s and 60s and the rise and decline of affirmative action in the late twentieth century He also analyzes the racial policies and politics of the major political parties and shows how they played the race card to win support **States' Laws on Race and Color** Pauli Murray, 1997 This remarkable hard to find resource is an exhaustive compilation of state laws and local ordinances in effect in 1950 that mandated racial segregation and of pre Brown era civil rights legislation The volume cites legislation from forty eight states and the District of Columbia and ordinances of twenty four major cities across the country The complete text of each law or ordinance is included along with occasional notes about its history and the extent to which it was enforced Other relevant information found in the volume ranges widely the texts of various Supreme Court rulings international documents federal government executive orders departmental rules regulations and directives legislation related to aliens and Native Americans and more In his introduction Davison M Douglas comments on the legislation compiled in the book and its relevance to scholars today and also provides biographical background on Pauli Murray the attorney who was the volume s original editor **The Racial Politics of Division** Monika Gosin, 2019-06-15 The Racial Politics of Division deconstructs antagonistic discourses that circulated in local Miami media between African Americans white Cubans and black Cubans during the 1980 Mariel Boatlift and the 1994 Balsero Crisis Monika Gosin challenges exclusionary arguments pitting these groups against one

another and depicts instead the nuanced ways in which identities have been constructed negotiated rejected and reclaimed in the context of Miami's historical multiethnic tensions Focusing on ideas of legitimacy Gosin argues that dominant race making ideologies of the white establishment regarding worthy citizenship and national belonging shape inter minority conflict as groups negotiate their precarious positioning within the nation Rejecting oversimplified and divisive racial politics The Racial Politics of Division portrays the lived experiences of African Americans white Cubans and Afro Cubans as disrupters in the binary frames of worth citizenship narratives Foregrounding the oft neglected voices of Afro Cubans Gosin posits new narratives regarding racial positioning and notions of solidarity in Miami By looking back to interethnic conflict that foreshadowed current demographic and social trends she provides us with lessons for current debates surrounding immigration interethnic relations and national belonging Gosin also shows us that despite these new demographic realities white racial power continues to reproduce itself by requiring complicity of racialized groups in exchange for a tenuous claim on US citizenship

Divided by Faith Michael O. Emerson, Harry and Hazel Chavanne Fellow in Religion and Public Policy Michael O Emerson, William R Kenan Jr Professor of Sociology Christian Smith, 2025-11-17 Divided by Faith has become an American classic This 25th anniversary edition includes new data analysis updated language updated references and a brand new concluding chapter The new chapter considers pertinent changes over the past quarter of a century and the validity of the Divided by Faith argument for current times Combining a substantial body of evidence with a sophisticated analysis the authors throw a sharp light on the oldest American dilemma Through a nationwide survey of 2 000 people and 200 face to face interviews the authors probed the grassroots of white evangelical America They found that despite recent efforts by the movement s leaders to address the problem of racial discrimination evangelicals themselves are preserving America s racial chasm In fact most white evangelicals see no systemic discrimination against African Americans or other groups However the authors contend that it is not active racism that prevents evangelicals from recognizing ongoing problems in American society Instead it is the evangelical movement s emphasis on individualism free will and personal relationships that make invisible the pervasive injustice that perpetuates racial inequality Most racial problems the subjects told the authors can be solved by the repentance and conversion of the sinful individuals at fault As a result of using the cultural tools of their faith white evangelicals are more divided from Christians of other racial backgrounds than are those in the general public And this reality has substantial implications for American life Racial justice and reconciliation remain far over the horizon Race, Gender, Sexuality, and Social Class Susan J. Our Hearts Were Strangely Lukewarm John Elford,2023-05-26 Our Hearts Were Strangely Lukewarm summons the reader on a most unusual journey through Methodist history Along the way we discover how the White American Methodist Church became deeply entangled with White supremacy From the founding of the church in the late eighteenth century to the present we have too often been silent bystanders or active accomplices in the enormous harm caused by racism It s a complicated and shameful story few Methodists know And yet if we want to transform the world toward a different and better future for all one free of the stranglehold of racism we must come to terms with the story of our past the whole story Our Hearts Were Strangely Lukewarm is a trustworthy guide into the church s troubled history It s also a present day call to action that finds inspiration in those Methodists who stood against the tide and those guiding the church today toward the horizon of racial justice

Racism, Diplomacy, and International Relations Ko Unoki,2022-02-21 Unoki addresses the significance of racism in international relations by focusing on its conception as a doctrine and its interrelationship with imperialism its doctrinal role in the development of the discipline of International Relations IR and various episodes from

Western and Asian history in which racism had affected state behavior and the practice of diplomacy The creation of empires that oppressed indigenous peoples the two World Wars and the campaigns of ethnic cleansing and genocide that accompanied these wars and other conflicts and international movements calling for the elimination of racial discrimination attest to the impact racial prejudice or racism has had on international relations Despite this history racism's relevance is seldom mentioned in IR courses offered in universities or IR textbooks Instead IR scholars have often explained the behavior of states using the framework of theories that highlight variables and themes such as power fear and the search for security in an anarchic world Unoki demonstrates that racism has not only substantially influenced the course of international relations but that it continues to do so in the 21st century making it imperative that policymakers are aware of racism's deleterious legacy A vital resource for students policymakers and those who are interested in building a more tolerant and just world

American Mixed Race Naomi Zack, 1995 This exciting multidisciplinary collection brings together twenty two original essays by scholars on the cutting edge of racial theory who address both the American concept of race and the specific problems experienced by those who do not fit neatly into the boxes society requires them to check

The Invention of Race Nicolas Bancel, Thomas David, Dominic Thomas, 2014-04-24 This edited collection explores the genesis of scientific conceptions of race and their accompanying impact on the taxonomy of human collections internationally as evidenced in ethnographic museums world fairs zoological gardens international colonial exhibitions and ethnic shows A deep epistemological change took place in Europe in this domain toward the end of the eighteenth century producing new scientific representations of race and thereby triggering a radical transformation in the visual economy relating to race and racial representation and its inscription in the body These practices would play defining roles in shaping public consciousness and the representation of otherness in modern societies The Invention of Race provides contextualization that is often lacking in contemporary discussions on diversity multiculturalism and race
