A pair of black-rimmed glasses is positioned in the center of the image. A vibrant, multi-colored light trail, resembling a rainbow or a comet's tail, streaks across the frame from the left, passing through the lenses of the glasses. The background is a soft-focus landscape featuring a blue sky with white clouds and a body of water in the distance.

Exploring Economics (with Xtra! CD-ROM, InfoTrac, and Student Workbook) (2nd Printing) Robert L. Sexton, 2005-04
This is not a traditional encyclopedic text filled with technical details. Rather, it is a modern back to basics book written expressly to promote economic literacy and engage students in learning about how economics affects them as citizens in our society. Coupled with pedagogical innovations that are well grounded in learning theory research, the text's visually effective design and captivating content inspire students to actually read the chapters. It succeeds like no other text in taking the intimidation out of economics and in meeting its goal of explaining the material in a manner that will bring students the same feeling of excitement and relevance the author felt when taking his first economics class.

With its short self-contained learning units and its carefully chosen pedagogy, graphs, and photos, this text will help students master and retain the principles of economics.

Exploring Macroeconomics Robert L. Sexton, 2005
The 4th Edition of Robert Sexton's *EXPLORING MACROECONOMICS* is now available in a modular format. The 4th Edition offers the macroeconomics content in 5 modules. In other words, it costs less than a traditional macroeconomics text. Buy a product that provides more value for your dollar. You no longer have to buy the same material twice; your instructor will not get through during the term. You are no longer paying for unused material and no longer carrying a heavy text.
