Event of Signature Michaela Fiserova,2022-08-01 Event of Signature formulates a new philosophical problem which focuses on the handwritten signature as sign of legal identification Author Michaela Fiserova works with three metaphysical expectations which are shared in discourses of graphology and forensic analysis The first expectation tends to reveal the signer's soul a handwritten signature naturally mirrors the unique psychological qualities of the signer The second expectation tends to guarantee the originality of the signer's trace a handwritten signature proves physical contact between the signed document and the writing tool authentically moved by the signer's hand The third expectation tends to recognize the signer's legal identity a handwritten signature is expected to reproduce the signer's personal style which enables identification by legal authorities In a methodologically inventive and semiotically based dialogue with Derrida's deconstruction Fiserova situates this triple expectation in the interval between life and law Challenging coverage of this topic finally shows that none of the metaphysical expectations will ever be fulfilled in the event of manual signing Legal uses of handwritten signature are characterized by the complex aporia of repeating the unrepeatable *CLINICAL GRAPHOLOGY* Annette Poizner,2012-06-01 Faced with challenging economic times contemporary clinicians require assessment tools which can accelerate the therapeutic process and facilitate brief psychotherapy This text introduces graphology or handwriting analysis which has been used clinically in Europe for decades alongside other projective techniques In *Clinical Graphology An Interpretive Manual for Mental Health Practitioners* this clinical application becomes accessible The text provides a compelling rationale for the clinical evaluation of handwriting and demonstrates how therapists can access rich personal data by examining clients' graphic behaviors The text is designed to systematically present clinical graphology in theory and practice A review of the literature demonstrates that the clinical use of graphology is consistent with the tenets of clinical practice Graphological interpretive theory is presented in detail providing a theoretical understanding of those graphic features which are meaningful indices of psychological phenomena In this context the inherent congruity between graphological and psychological theory is explored Diverse handwriting samples including many of contemporary public figures illustrate graphic phenomena while demonstrating and encouraging the graphologist's unique type of visual acuity To facilitate the reader's ability to synthesize graphic traits into a holistic personality profile an interpretive schedule is provided which summarizes graphic indices and their interpretations A method of assessing handwritings is provided which permits a degree of standardization and so facilitates research Using this text readers can integrate graphological theory and cultivate interpretive skills Providing a comprehensive treatment of the psychology of handwriting this volume includes a discussion of caveats which guide the clinical use of graphology as well as research considerations and guidelines for sharing

graphological findings with clients To date clinicians in North America remain unaware of the merits of graphology usage although they continue to seek out methods of assessment which will facilitate their clinical efforts This volume will demonstrate graphology as a tool which can be applied by those with virtually any theoretical orientation or practice model speaking to the interests of psychiatrists psychologists social workers art therapists vocational counselors pastoral counselors and naturopaths and paraprofessionals **The British National Bibliography** Arthur James Wells,1998

Liminalities of Gender and Sexuality in Nineteenth-Century Iranian Photography Staci Gem Scheiwiller,2016-12-01 Nineteenth century Iran was an ocularcentered society predicated on visibility and what was seen and unseen and photographs became liminal sites of desire that maneuvered betwixt and between various social spaces public private seen unseen accessible and forbidden thus mapping graphing and even transgressing those spaces especially in light of increasing modernization and global contact during the nineteenth and early twentieth centuries Of primary interest is how photographs negotiated and coded gender sexuality and desire becoming strategies of empowerment of domination of expression and of being seen Hence the photograph became a vehicle to traverse multiple locations that various gendered physical bodies could not and it was also the social and political relations that had preceded the photograph that determined those ideological spaces of im mobility In identifying these notions in photographs one may glean information about how modern Iran metamorphosed throughout its own long dur e or resisted those societal transformations as a result of modernization *Sex Scandal* William A. Cohen,1996 Never has the Victorian novel appeared so perverse as it does in these pages and never has its perversity seemed so fundamental to its accomplishment By viewing this fiction alongside the most alarming public scandals of the day Cohen exposes both the scandalousness of this literature and its sexiness In narratives ranging from Great Expectations to the Boulton and Park sodomy scandal of 1870 71 from Eliot s and Trollope s novels about scandalous women to Oscar Wilde s writing and his trials for homosexuality Cohen shows how in each instance sexuality appears couched in coded terms He identifies an assortment of cunning narrative techniques used

to insinuate sex into Victorian writing demonstrating that even as such narratives air the scandalous subject they emphasize its unspeakable nature Written with an eye toward the sex scandals that still whet the appetites of consumers of news and novels this work is suggestive about our own modes of imagining sexuality today and how we arrived at them BOOK JACKET
