Thomas, Michael E. Levin, 2000-01-01 What rights govern heterosexual and homosexual behaviors Two distinguished philosophers debate this important issue in Sexual Orientation and Human Rights Laurence Thomas argues that a society which has the constitutional resources to protect hate groups can protect homosexuals without valorizing the homosexual life style He defends the view that the Bible cannot warrant the venom that in the name of religion is often expressed against homosexuals Michael Levin defends the unorthodox view that the aversion some people experience toward homosexuality deserves respect He further argues that while homosexuals enjoy the same rights as others to be free of violence and discrimination they do not have more extensive rights *Sexual Orientation: A Human Right* Eric Heinze, 2023-07-24 This book is the first to examine sexual orientation from the viewpoint of international human rights law It does not simply create a platform of rights and argue for their introduction in human rights law Rather it examines how extant international norms should be construed to include rights against discrimination on the basis of sexual orientation including rights of privacy equality speech expression and association It raises questions of cultural relativism religious faith

social science and legal theory It will be of interest to international jurists human rights organizations gay rights organizations constitutional scholars and anyone interested in expanding the role of international human rights law as a formidable adversary of persecution and discrimination throughout the world *Sexual Orientation and Human Rights*

Sexual Orientation and Human Rights in American Religious

Discourse Saul M. Olyan,Martha C. Nussbaum,1998-07-02 Sexual orientation is a topic of intense debate within America s religious traditions These discussions have had a significant impact on the formation of public policy as speakers who locate themselves squarely within religious traditions have articulated positions on both sides in recent arguments concerning gays in the military civil rights protections for gays and lesbians gay marriage parenting and foster parenting and benefits for partners of gay and lesbian employees of major corporations and institutions This volume which stems from a 1995 conference at Brown University aims to promote both academic and public understanding of the different positions that exist on sexual orientation and its public policy dimensions within four major American religious traditions Writers from within the Jewish community the Roman Catholic church Mainline Protestant churches and African American churches explore the history and tradition of their communities on same sex orientation discuss the moral stance they advocate and consider the legal and public policy implications of that stance For each of these traditions two opposing views are represented and a respondent frames the issue in a larger context The book concludes with essays by Michael McConnell and Andrew Koppelman exploring how our society might find a modus vivendi in a state position of neutrality on the moral status of homosexuality This book will appeal to a broad range of readers interested in these crucial issues and in the role the religious communities play in these debates while helping to foster the climate for a more reasoned and civil dialogue Breaking the Silence Amnesty International USA.,1994 *Sexual Orientation : a Human Right* Eric Heinze,1994 *Equality and*

Non-Discrimination under International Law Stephanie Farrior,2017-07-05 The principles of equality and non discrimination lie at the heart of international human rights law They are the only human rights explicitly included in the UN Charter and they appear at the beginning of virtually every major human rights instrument This volume contains selected works by leading authors on the subject of equality and non discrimination under international law The selections are grouped into four sections The first presents essays that explore theoretical concepts of equality and non discrimination The next addresses the development of international legal standards on the subject The third presents articles analyzing how those standards have been interpreted and applied by UN and regional human rights bodies and the last contains works on what measures besides legal action States are to take to in order to achieve equality and non discrimination **Rethinking**
