Sexualizing The Social Power And Organization Of Sexuality:

Sexualizing the Social Lisa Adkins, Vicki Merchant, 1996-06-12 Sociologists are increasingly aware that analyses of social life must include a consideration of how the social may be structured by the sexual. In turn this insight is contributing to a shift in understandings of sociology. This volume drawn from papers from the 1994 British Sociological Association Annual Conference on Sexualities in Social Context brings together a range of writers who are contributing to this exciting new agenda. Various aspects of social life including employment, family life, representations, politics, identities and the workings of the law are considered in terms of how sexuality shapes their organization and they shape sexuality. In so doing a series of ongoing and new controversies and debates are confronted from the relationship of feminism to prostitution to the constitution of the self in late modernity. **Childhood, Youth, and Social Work in Transformation** Lynn M.

Nybell, Jeffrey J. Shook, Janet L. Finn, 2009 Contributors analyze how economic, political and cultural changes over the past several decades have reshaped the experiences and representations of children and youth in the United States. From publisher description: Straight Hanne Blank, 2012-01-31 It's surprising that the term heterosexuality is less than 150 years old and that heterosexuality's history has never before been written given how obsessed we are with it. In Straight independent scholar Hanne Blank delves deep into the contemporary psyche as well as the historical record to chronicle the realm of heterosexual relations, a subject that is anything but straight and narrow. Consider how Catholic monasticism, the reading of novels, the abolition of slavery, leisure time, divorce and constipation of the bowels have all at some time been labeled enemies of the heterosexual state. With an extensive historical scope and plenty of juicy details and examples, Straight provides a fascinating look at the vagaries, schisms and contradictions of what has so often been perceived as an irreducible fact of nature. Global Denim Daniel Miller, Sophie Woodward, 2011-01-01 On any given day nearly half of the world's population is wearing blue jeans; this is a fascinating study of the causes, nature and consequences of the rise of global denim.

Celebrities Against Violence Truman R. Keys, 2022-03-04 Violence is more than an issue in America. It is a pandemic; its negative impacts and corrosive character are harming us whether we are a victim, a bystander or professional tasked with public health and safety. Violence affects us regardless of class or social standing. For decades celebrities and well-known public figures have taken to the media to share their own experiences with violence. This book spotlights the celebrities and their loved ones who have survived self-harm, bullying, intimate partner violence, sexual assault, family abuse, home invasion, gun violence or police brutality. Violence prevention experts increasingly recognize the influence of celebrities and work with them to spread awareness. This collection of case studies aims to support this growing influence by documenting the effects of violence prevention through celebrity advocacy. Examining Aspects of Sexuality and the Self, 2020-05-06 This volume presents various points of view on historical, sociological and linguistic approaches to sexuality and the self. This eBook is comprised of thirteen chapters and is a result of proceedings from the 6th Global Conference on Persons and Sexualities.

Interconnecting the Violences of Men Kate Seymour, Bob Pease, Sofia Strid, Jeff Hearn, 2024-11-04 This book aims to expand and enrich understandings of violences by focusing on gendered continuities interconnections and intersections across multiple forms and manifestations of men's violence In actively countering both the compartmentalisation of studies of violence by type and form and the tendency to conceptualise violence narrowly it aims to flesh out not delimit understandings of violence Bringing together cross disciplinary indeed transdisciplinary perspectives this book addresses how what are often seen as specific and separate violences connect closely and intricately with wider

understandings of violence how there are gendered continuities between violences and how gendered violences take many forms and manifestations and are themselves intersectional Grounded by the recognition that violence is itself a form of inequality the contributors to this volume traverse the intersectional complexities across both experiences of violent inequality and what is seen to count as violence The international scope of this book will be of interest to students and academics across many fields including sociology criminology psychology social work politics gender studies child and youth studies military and peace studies environmental studies and colonial studies as well as practitioners activists and policymakers engaged in violence prevention *Handbook of the Sociology of Gender* Janet Saltzman Chafetz, 2006-11-22 During the past three decades feminist scholars have successfully demonstrated the ubiquity and omnirelevance of gender as a sociocultural construction in virtually all human collectivities past and present Intrapsychic interactional and collective social processes are gendered as are micro meso and macro social structures Gender shapes and is shaped in all arenas of social life from the most mundane practices of everyday life to those of the most powerful corporate actors Contemporary understandings of gender emanate from a large community of primarily feminist scholars that spans the gamut of learned disciplines and also includes non academic activist thinkers However while incorporating some cross disciplinary material this volume focuses specifically on sociological theories and research concerning gender which are discussed across the full array of social processes structures and institutions As editor I have explicitly tried to shape the contributions to this volume along several lines that reflect my long standing views about sociology in general and gender sociology in particular First I asked authors to include cross national and historical material as much as possible This request reflects my belief that understanding and evaluating the here and now and working realistically for a better future can only be accomplished from a comparative perspective Too often American sociology has been both tempero and ethnocentric Second I have asked authors to be sensitive to within gender differences along class racial ethnic sexual preference and age cohort lines

Re-reading the Salaryman in Japan Romit Dasgupta, 2013 This book uses the figure of the salaryman to explore masculinity in Japan by examining the salaryman as a gendered construct and is one of the first to focus on the men within Japanese corporate culture through a gendered lens Not only does this add to the emerging literature on masculinity in Japan but given the important role Japanese corporate culture has played in Japan s emergence as an industrial power Romit Dasgupta s research offers a new way of looking both at Japanese business culture and more generally at important changes in Japanese society in recent years

feminists in the wake of Weinstein and the cultural values associated with men's abuse particularly within the film and television industries The book concludes with an exploration of what the MeToo era has meant for men as victims survivors and as alleged perpetrators in relation to narratives of victimisation and of monstrosity *Men's Intrusion, Women's Embodiment* Fiona Vera-Gray, 2016-07-01 Research on violence against women tends to focus on topics such as sexual assault and intimate partner violence arguably to the detriment of investigating men's violence and intrusion in women's everyday lives The reality and possibility of the routine intrusions women experience from men in public space from unwanted comments to flashing following and frottage are frequently unaddressed in research as well as in theoretical and policy based responses to violence against women Often at their height during women's adolescence such practices are commonly dismissed as trivial relatively harmless expressions of free speech too subjective to be legislated against Based on original empirical research this book is the first of its kind to conduct a feminist phenomenological analysis of the experience for women of men's stranger intrusions in public spaces It suggests that intrusion from unknown men is a fundamental factor in how women understand and enact their embodied selfhood This book is essential reading for academics and students involved in the study of violence against women feminist philosophy applied sociology feminist criminology and gender studies *Routledge Handbook of Sexuality Studies in East Asia* Mark McLelland, Vera Mackie, 2014-09-15 This collection brings together cutting edge work by established and emerging scholars focusing on key societies in the East Asian region China Taiwan Hong Kong Japan North and South Korea Mongolia and Vietnam This scope enables the collection to reflect on the nature of the transformations in constructions of sexuality in highly developed developing and emerging societies and economies Both Japan and China have established traditions of sexuality studies reflecting longstanding indigenous understandings of sex as well as more recent developments which interface with Euro American medical and psychological understandings Authors reflect upon the complex colonial and economic interactions and cultural flows which have affected the East Asian region over the last two centuries They trace local flows of ideas instead of defaulting to Euro American paradigms for sexuality studies Through looking at regional and global exchanges of ideas about sexuality this volume adds considerably to our understanding of the East Asian region and contributes to wider discussions of social transformation modernisation and globalisation It will be essential reading in undergraduate and graduate programs in sexuality studies gender studies women's studies and masculinity studies as well as in anthropology sociology history cultural studies area studies and health sciences
