Another Throat Ryan Sharp, 2024-10-29

The early twenty-first century has seen a sharp rise in Black US poets employing the mask of persona, often including and interrogating archival materials as they do so. While some have observed this rise and noted its connection to historical figures, Ryan Sharp explores it more deeply as a project-based historical and poetic practice. Sharp examines its sustained use of historical persona and capacity for conjuring Black speakers as a countermeasure against the archival silencing and misrepresentation of Black voices and histories, a tactic he theorizes as poetic fabulation through the poetry of Elizabeth Alexander, Cornelius Eady, Adrian Matejka, Patricia Smith, Natasha Trethewey, and Frank X Walker. This poetic practice is not only about looking back but about critically and creatively reimagining the past to expand the possibilities for Black presents and futures. Through his argument, Sharp demonstrates how the unique aesthetic and rhetorical license afforded to poetry, along with the interiority of persona, empowers such historically minded projects to be concurrently invested in the curation of Black narratives and identities.

Boxing Simplified Clarence E. Kennedy, 1929

Abstract: By diligently following the principles set forth in this book, I am convinced that any mature person with ordinary intelligence and initiative can, without previous ring experience, become a capable teacher of boxing. The book was primarily written to meet the requests of a number of boxing instructors, many of them my former pupils, who feel the need of such a handbook for their work. It also arose from the suggestion of a neighbor boy who felt that a book of simplified tactics with illustrations, in which the boxers were numbered and the drill counts given, would enable a troop of Boy Scouts or any group of boys to learn boxing without an instructor. Thus, though designed for the professional teacher, the book is also intended for the beginner who wishes to master the principles and technique of practical boxing. How far it has succeeded in the latter aim is indicated by the comment of a father who, on seeing it in manuscript, declared that it was the book he had long looked for in order that he might enjoy roughing it with his boys in teaching them boxing. And it is so simple, said he, that anyone can follow it. This statement led to the title BOXING.
