and often polemical handling of these categories The book firstly contextualizes traces and accounts for Dante s intriguing commitment to love poetry from the minor works to the Commedia It highlights his attempts especially in his masterpiece to overcome normative oppositions in formulating a uniquely redemptive vernacular poetics one oriented towards the eternal while rooted in his affective and indeed erotic past It then examines how this matter is at stake in Dante s treatment of three important lyric predecessors Guittone d Arezzo Arnaut Daniel and Folco of Marseilles Through a detailed reading of Dante s engagement with these poets the book illuminates his careful departure from a dualistic model of love and conversion and shows his erotic commitment to be at the heart of his claims to pre eminence as a vernacular author
